2014 International Conference on Mechanical Design, Manufacture and Automation Engineering

(MDMAE2014) D. P. Yasin, 2014-02-04 Automation Engineering MDMAE2014 is to provide a platform for all researchers in the field of Mechanical Manufacture Automation and Material Engineering to share the most advanced knowledge from both academic and industrial world and to communicate with each other about their experiences and the most up to date research achievements discussing forward issues and future prospects seeking a better way to solve practical problems in this fields As the first international conference on MDMAE consisting of five main topics Mechanical Engineering Automation Engineering Manufacturing Systems Materials Engineering and Measurement and Test which offer attendees free space to present their inspiring works and academic achievements mixed with the atmosphere of industry and academia it has attracted many scholars researchers and practitioners in these fields from various countries to get together in this conference sharing their latest research achievements with each other enriching their professional knowledge and broadening their horizons as well Robomatix Reporter ,1988 **Proceedings of the ... Joint Automatic Control Conference** ,1978 **Machine Intelligence** A. Gomersall, 2013-03-14 In 1981 Robotics Bibliography was published containing over 1 800 references on industrial robot research and development culled from the scientific literature over the previous 12 years It was felt that sensors for use with industrial robots merited a section and accordingly just over 200 papers were included It is a sign of the increased research into sensors in production engineering that this bibliography on both the contact and non contact forms has appeared less than three years after that first comprehensive collection of references appeared In a review in 1975 Professor Warnecke of IPA Stuttgart drew attention to the lack of sensors for touch and vision Since then research workers in various companies universities and national laboratories in the USA the UK Italy Germany and Japan have concentrated on improving sensor capabilities particularly utilising vision artificial intelligence and pattern recognition principles As a result many research projects are on the brink of commercial exploitation and development This bibliography brings together the documentation on that research and development highlighting the advances made in vision systems but not neglecting the development of tactile sensors of various types No bibliography can ever be comprehensive but significant contributions from research workers and production engineers from the major industrialised countries over the last 12 years have been included **Japanese Technical Periodical Index** ,1987 *Control Theory Meets the Real World of Application* ,1978 **Automation** ,1963 Directory of Published Proceedings ,1991 **Assembly Engineering** ,1981 *Electronic Design's Gold Book* ,1983 **November 2022 - Surplus Record Machinery & Equipment Directory** Surplus Record, 2022-11-01 SURPLUS RECORD is the leading independent business directory of new and used capital equipment machine tools machinery and industrial equipment listing over 95 000 industrial assets including metalworking and fabricating machine tools chemical and process equipment cranes air compressors pumps
