Cognition and Acquired Language Disorders - E-Book Richard K. Peach, Lewis P. Shapiro, 2011-12-10 This new graduate level textbook Cognition and Acquired Language Disorders An Information Processing Approach addresses the cognitive aspects of language and communication It assembles the most recent information on this topic addressing normal cognitive processing for language in adults the cognitive impairments underlying language disorders arising from a variety of neurologic conditions and current assessment and treatment strategies for the management of these disorders The text is organized using an information processing approach to acquired language disorders and thus can be set apart from texts that rely upon a more traditional syndrome based approach e g stroke dementia and traumatic brain injury This approach facilitates the description and treatment of acquired language disorders across many neurologic groups when particular cognitive deficits are identified Other useful features of the text include assessment and treatment protocols that are based on current evidence These protocols provide students and clinicians a ready clinical resource for managing language disorders due to deficits in attention memory linguistic operations and executive functions Unique process oriented approach organizes content by cognitive processes instead of by syndromes so you can apply the information and treatment approaches to any one of many neurologic groups with the same cognitive deficit Cognitive domains are described as they relate to communication rather than separated as they are in many other publications where they are treated as independent behaviors A separate section on normal processing includes five chapters providing a strong foundation for understanding the factors that contribute to disordered communication and its management The evidence based approach promotes best practices for the most effective management of patients with cognitive communication disorders Coverage of the cognitive aspects of communication helps you meet the standards for certification in speech language pathology A strong author team includes two lead authors who are well known and highly respected in the academic community along with expert contributors ensuring a comprehensive advanced clinical text reference *Cognition* Mark H. Ashcraft, Raymond M. Klein, 2009-02-15 This text strives to strike a balance between basic core material and cutting edge topics It uses a first person narrative to draw you in and convey the excitement of the field It thoroughly covers the foundations of the field then goes on to reflect the increasing use of new technologies to study memory and cognition and to cover other important developments central to its study **Cognition Revel Access Code** Professor of Psychology Gabriel A Radvansky, Mark H. The Critical Thinking Toolkit Galen A. Foresman, Peter S. Fosl, Jamie C. Watson, 2016-08-29 The Critical Thinking Toolkit is a comprehensive compendium that equips readers with the essential knowledge and methods for clear analytical logical thinking and critique in a range of scholarly contexts and everyday situations Takes an expansive approach to critical thinking by exploring concepts from other disciplines including evidence and justification from philosophy cognitive biases and errors from psychology race and gender from sociology and political science and tropes and symbols from rhetoric Follows the proven format of The Philosopher's Toolkit and The Ethics Toolkit with concise easily digestible entries see also recommendations that connect topics and recommended reading lists Allows readers to apply new critical thinking and reasoning skills with exercises and real life examples at the end of each chapter Written in an accessible way it leads readers through terrain too often cluttered with jargon Ideal for beginning to advanced students as well as general readers looking for a sophisticated yet accessible introduction to critical thinking

The Historical Christ Bruce W. Behrman, 2023-02-16 This book uses the recent findings of cognitive and clinical psychology to draw a picture of the historical Jesus The author uses recent research on conversational memory and clinical psychology in order to shine a light on the way Jesus was This book argues that Jesus suffered from manic depressive illness He identified with God He suffered from extreme mood changes and felt great compassion towards people All of these are mental states which may be triggered by manic depression Manic depression is not a dementing illness This author is not saying that Jesus suffered from a backward type of psychosis But manic depression when manifested in talented persons acts as a catalyst to trigger artistic creativity Many great artists and poets have suffered from manic depression Byron Schumann Tennyson van Gogh Fitzgerald and Lowell to name a few It is among great poets and artists such as these that the author place the historical Jesus This book therefore argues that the writers of the Gospels when they record Jesus as asserting his divinity were conveying an accurate picture of him His assertions of divinity were not fabrications of the early church

musical coordination in a school wind band is addressed by pedagogues was qualitatively reconstructed using videographic

interaction analysis A process of Hervorhebungspraktik practice of highlighting was observed which gradually brought musical elements out of their temporal context and into collective perception allowing both atmospheric interaction with content and the growth of professional vision A process of deconstruction and reintegration takes place as musical elements now present in collective consciousness withdraw back into the piece as a whole This necessitates an educational approach emphasizing not only the elements themselves but the relationships between them The realms of edusemiotics and phenomenology give us a pragmatic way in both a Deweyan and a Peircean sense to approach learning in music making that goes beyond the idea of co constructivism as content with agency teacher and student participate in coordinative interaction Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination edusemiotics and qualitative video analysis Aimee Beaulieu Schmidt is a native Texan with teaching experience in American and German public education As a band director and orchestral musician she has helped build music education programs on two continents She lives with her husband and two daughters near Frankfurt Germany Her research focuses on musical coordination
