Catalogue of Copyright Entries ,1911 **Journal of the Hellenic Diaspora** ,1987 **Theatre of the Ridiculous** Kelly I. Aliano,2018-10-30 Theatre of the Ridiculous is a significant movement that highlighted the radical possibilities inherent in camp Much of contemporary theatre owes this form a great debt but little has been written about its history or aesthetic markers This book offers a comprehensive overview of the important practitioners along with critical commentary of their work Beginning with Ridiculous most recognizable name Charles Ludlam the author traces the development of this campy queer genre from the B movies of Maria Montez to the Pop Art scene of Andy Warhol to the founding of the Play House of the Ridiculous and the dawn of Ludlam s career and finally to the contemporary theatre scene The Politics of Perfection Kimberly Hurd Hale,2016-10-07 The Politics of Perfection Technology and Creation in Literature and Film provides an exploration of the relationship between modern technological progress and classical liberalism Each chapter provides a

detailed analysis of a film or novel including Fritz Lang's *Metropolis*, Ridley Scott's *Prometheus*, Michael Gondry's *Eternal Sunshine of the Spotless Mind*, Kazuo Ishiguro's *Never Let Me Go* and Margaret Atwood's *Oryx and Crake*. These works of fiction are examined through the lens of political thinkers ranging from Plato to Hannah Arendt. The compatibility of classical liberalism and technology is questioned using fiction as a window into Western society's views on politics, economics, religion, technology, and the family. This project explores the intersection between human nature and creation, particularly artificial intelligence and genetic engineering, using works of literature and film to access cultural concerns. Each of the works featured asks a question about the relationship between technology and creation. Technology also allows humanity to create new types of life in the forms of artificial intelligence and genetically engineered beings. This book studies works of literature and film as evidence of the contemporary unease with the progress of technology and its effect on the political realm.

Catalogue of Copyright Entries, Library of Congress, Copyright Office, 1910 **Where Were You Before The Tree of Life? Volume 2** Peter R. Farley, 2011-04-04 Volume 2 of 9 These books are the first to fully map out the history of alien interaction with the Earth, past, present, and into the near future. Extending the work of noted researchers such as Erich Von Daniken and Zecharia Sitchin, the book series' goal is to show its readers the extensive repercussions this interaction has had on life on this planet, especially its formative role in the global conspiracy known as the New World Order. *Plunkett's Real Estate & Construction Industry Almanac 2007: Real Estate & Construction Industry Market Research, Statistics, Trends & Leading Companies* Jack W. Plunkett, 2007-06 Provides an analysis and statistics of various facets of the real estate and construction industry, including architecture, engineering, property management, finance, operations, mortgages, REITs, brokerage, construction, and development. This book includes profiles of nearly 400 firms. *Publication*, 1993 **The Haunting of America** William J. Birnes, Joel Martin, 2009-09-15 In the tradition of their bestselling authors Joel Martin and William J. Birnes write *The Haunting of America*. From the Salem Witch Trials to Harry Houdini, the only book to tell the story of how paranormal events influenced and sometimes even drove political events. In a narrative retelling of American history that begins with the Salem Witch Trials of the seventeenth century, Martin and Birnes unearth the roots of America's fascination with the ghosts, goblins, and demons that possess our imaginations and nightmares. The authors examine the political history of the United States through the lens of the paranormal and investigate the spiritual events that inspired public policy, channelers, and mediums who have advised presidents, UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union, out-of-body experiencers deployed to gather sensitive intelligence on other countries, and even spirits summoned to communicate with living politicians. *The Haunting of America* is a thrilling exploration of the often unexpected influences of the paranormal on science, medicine, law, government, the military, psychology, theology, death, and dying, spirituality, and pop culture. **Epistemic Decolonization** D.A. Wood, 2020-07-28 European colonization played a major role in the acquisition, formation, and destruction of different ways of

knowing Recently many scholars and activists have come to ask Are there ways in which knowledge might be decolonized Epistemic Decolonization examines a variety of such projects from a critical and philosophical perspective The book introduces the unfamiliar reader to the wide variety of approaches to the topic at hand providing concrete examples along the way It argues that the predominant contemporary approach to epistemic decolonization leads one into various intractable theoretical and practical problems The book then closely investigates the political and scientific work of Frantz Fanon and Amílcar Cabral demonstrating how their philosophical commitments can help lead one out of the practical and theoretical issues faced by the current predominant orientation and concludes by forging links between their work and that of some contemporary feminist epistemologists
