## **Averroes And His Philosophy:**

*Averroes and His Philosophy* Oliver Leaman, 2013-12-16 Despite his important stature in the history of philosophy Averroes is a thinker whose work has been left largely unexplored in this century It is the aim of this book to rectify this omission and to argue that his philosophical output is of considerable philosophical as well as historical significance

exegetical authority has had an enduring legacy The collected essays offer an unprecedented and much desired overview of his life and thought with an emphasis on the neglected philosophical dimension of his oeuvre as seen in both his biblical commentaries and his sole philosophical treatise *Light of the Nations* *Truth, Philosophers, and Prophets: a Critical Study of Isaac Albalag's Sefer Tiqqun ha-De'ot* Bakinaz Khalifa Abdalla, 2024-12-02 This book focuses on Isaac Albalag's perspective on the relationship between religion and philosophy In *Sefer Tiqqun ha-De'ot* a Hebrew translation with a commentary of al az l's Arabic philosophical encyclopedia *Maq id al Fal sifah* Albalag indicates his adherence to what is known in scholarship as the double truth doctrine By analysing the *Tiqqun* against its philosophical background and its critical engagement with the *Maq id* this book demonstrates Albalag's unyielding commitment to Aristotelianism as known to him through Averroes's lens concluding that his apparent embrace of the double truth doctrine is merely a strategic tool to carve out a distinct space for philosophy independent of religious beliefs *Averroes' Natural Philosophy and its Reception in the Latin West* Paul J.J.M. Kogan, 1985-09-01 Averroes and the Metaphysics of Causation examines the controversial causation issue That causes produce their effects and can be known to do so is the view that Averroes defends in his *Tahafut Al Tahafut* where he summarizes and evaluates the debates about causation debates that took place over several generations between the philosophers and the theologians of medieval Islam Drawing from his *Tahafut* his commentaries and other writings Kogan shows that Averroes discussion of causation represents a dialogue across the generations and a rich contribution to the history of the causal controversy Averroes responds to al Ghazali's proto Humean critique of the philosophers account which treats causation as an entailment relation In this response Averroes develops an independent position that is of philosophical interest because it clearly anticipates

many of the contemporary responses to Hume associated with the singularist position Building on this analysis Kogan resolves many long standing paradoxes in Averroes treatment of miracles eternal creation God s causal knowing and the theory of emanation     Cyclopedia of Biblical, Theological, and Ecclesiastical Literature John McClintock,1885

Enlightenment's attack upon the Judeo Christian tradition and its impact upon the development of secular regimes in France Germany and Russia Such regimes followed the anti Semitic anti Christian agenda of the French Enlightenment in blaming the Judeo Christian tradition for all the ills of European society and believing that human beings can develop their own set of values and purposes through rational means apart from any revelation from God or Scripture Stephen Strehle's analysis extends our understanding of church state relations and its history He confirms the spiritual roots of modern anti-Semitism within the ideology of the Enlightenment and recognizes the intimate relationship between anti-Semitism and anti Christianity Strehle questions the absolute doctrine of church state separation given its background in the bigotries of the philosophes He notes the nefarious motives of subsequent regimes which used the French doctrine to replace the religious community with the state and its secular ideology This detailed historical analysis of original sources and secondary literature is woven together with special appreciation for the philosophical and theological ideas that contributed to the emergence of political institutions Readers will gain an understanding of the most influential ideas shaping the modern world and present day culture     Thirty-Five Oriental Philosophers Diané Collinson, Dr Robert Wilkinson, Robert
