Music/Video Gina Arnold, Daniel Cookney, Kirsty Fairclough, Michael Goddard, 2017-08-30 This book is a lively comprehensive and timely reader on the music video capitalising on cross disciplinary research expertise which represents a substantial academic engagement with the music video a mediated form and practice that still remains relatively under explored in a 21st century context The music video has remained suspended between two distinct poles On the one hand the music video as the visual sheen of late capitalism at the intersection of celebrity studies and postmodernism On the other hand the music video as art looking to a prehistory of avant garde film making while perpetually pushing forward the digital frontier with a taste for anarchy controversy and the integration of special effects into a form designed to be disseminated across digital platforms In this way the music video virally re engenders debates about high art and low culture This collection presents a comprehensive account of the music

video from a contemporary 21st century perspective This entails revisiting key moments in the canonical history of the music video exploring its articulations of sexuality and gender examining its functioning as a form of artistic expression between music film and video art and following the music video s dissemination into the digital domain considering how digital media and social media have come to re invent the forms and functions of the music video well beyond the limits of music television

Children and Adolescents Mary Brady,2022-03-17 Braving the Erotic Field in the Psychoanalytic Treatment of Adolescents and Children is a groundbreaking collection of chapters by an international group of analytic authors The book addresses the general lack of psychoanalytic writing on working with erotic feelings in the consulting room when treating children and adolescents This lack is doubly odd given Freud's emphasis on childhood sexuality as well as the intensities of the adolescent body mind This book takes the view that the subtle interchange of feelings dreams narratives and images that arise when erotic feelings are in the fore is better conceptualized as an erotic field than with the binary of transference countertransference In contemporary psychoanalysis the idea that transference love offers the possibility of knowing the other in the deepest possible way is supplanting an attitude of suspicion Clinical work with small children to late adolescents will be offered including gay and gender fluid adolescents This book makes a decisive contribution to assist clinicians to brave the erotic field with children and adolescents [The True Sparanos Story](#) Patrick Armond Francke,2015-04-16 My autobiography is about my life involved with gambling sex alcohol drugs prison loansharking court trials My father was a cop
