Miss Seetoh in the World Catherine Lim, 2012-01-30 Miss Maria Seetoh a teacher of English and Literature in St Peter's Secondary School in Singapore sees herself as a simple soul who only wants to be a good and happy person and has a dream to write stories about simple ordinary people going about their daily lives However God Providence Fate Chance etc decrees otherwise She is thrown into the tumult of a disastrous marriage that begins as strangely as it ends a failed love affair that hollows her out and a controversial teaching career that ends with her abrupt resignation Most of all she is caught in a political event as shocking in its causes as in its consequences Set against the backdrop of modern day Singapore a hugely successful city state grappling with changes and challenges that could corrode the very soul the novel ultimately examines with wit wry irony and warm understanding the unchanging quandaries of the human condition when love and sex religion and politics tradition and modernity can all come together in an unruly mix to show human nature at its most depressing and its most inspiring

English and Its Teachers Simon Gibbons, 2017-04-21 English and Its Teachers offers a historical overview of the development of secondary English teaching in schools over the past 50 years Initially charting the rise of a new progressive approach in the 1960s the book then considers the implications for the subject and its teachers of three decades of central policy intervention Throughout document and interview data are combined to construct a narrative that details the fascinating and at times turbulent history The book is divided into two main parts The age of invention and The age of intervention The first of these sections details how innovative English teachers and academics helped to develop a new model The second section explores how successive governments have sought to shape English through policy A final part draws comparisons with the teaching of the subject in other major English speaking nations and considers what the future might hold English and Its Teachers is a valuable resource for those interested in the teaching of English in secondary schools from new entrants to the profession to experienced teachers and academics working in the sector
