cinco décadas de arquitectura es una invitación a conocer y explorar la obra de uno de los arquitectos más influyentes de Chile de la segunda mitad del siglo XX y de comienzos del XXI. A través de un recorrido por su vasta producción desarrollada en colaboración con un conjunto de destacados profesionales, este libro revela una práctica arquitectónica que abarca desde planes maestros hasta el diseño de mobiliario, pasando por conjuntos de viviendas, edificios institucionales, espacios culturales, hoteles, hospitales, intervenciones patrimoniales y un conjunto significativo de casas unifamiliares cuyo impacto definió un sello reconocible hasta la actualidad. El enfoque integral desarrollado en su aproximación a la arquitectura, el riguroso método de trabajo aplicado en la oficina, así como una mirada atenta al estado internacional de la disciplina, permitieron construir un cuerpo de obra de alta calidad, el cual se reúne por primera vez en esta publicación. Además de reconstruir esta trayectoria por medio de sus protagonistas, el libro revisita el legado de la oficina desde la perspectiva de arquitectos contemporáneos, presentando a la vez el Fondo Documental Christian de Groote, recibido en 2022 por la Facultad de Arquitectura, Diseño y Estudios Urbanos de la Pontificia Universidad Católica de Chile. Con miles de planos, documentos, maquetas y material inédito, este acervo no solo resguarda la memoria de su obra, sino que abre nuevas lecturas sobre su impacto en la arquitectura chilena.

Love Pattern and Colour Charlotte Abrahams, 2021-10-12 The essential guide to choosing patterns for the home Love Pattern and Colour is packed full of colourful inspiring ideas for using pattern with confidence The Design, Production and Reception of Eighteenth-Century Wallpaper in Britain Clare Taylor, 2018-06-12 Wallpaper's spread across trades, class and gender is charted in this first full length study of the material's use in Britain during the long eighteenth century. It examines the types of wallpaper that were designed and produced and the interior spaces it occupied from the country house to the homes of prosperous townsfolk and gentry, showing that wallpaper was hung by Earls and merchants as well as by aristocratic women. Drawing on a wide range of little known examples of interior schemes and surviving wallpapers together with unpublished evidence from archives including letters and bills, it charts wallpaper's evolution across the century from cheap textile imitation to innovative new decorative material. Wallpaper's growth is considered not in terms of chronology but rather alongside the categories used by eighteenth century tradesmen and consumers from plains to flocks, from China papers to papier mâché and from stucco papers to materials for creating print rooms. It ends by assessing the ways in which eighteenth century wallpaper was used to create historicist interiors in the twentieth century. Including a wide range of illustrations, many in colour, the book will be of interest to historians of material culture and design scholars of art and architectural history as well as practicing designers and those interested in the historic interior. 2018

2018-09-10 **Modern in the Middle** Susan Benjamin, Michelangelo Sabatino, 2020-09-01 The first survey of the classic twentieth century houses that defined American Midwestern modernism. Famed as the birthplace of that icon of twentieth century architecture, the skyscraper, Chicago also cultivated a more humble but no less consequential form of modernism: the private residence. *Modern in the Middle: Chicago Houses 1929-75* explores the substantial yet overlooked role

that Chicago and its suburbs played in the development of the modern single family house in the twentieth century In a city often associated with the outsize reputations of Frank Lloyd Wright and Ludwig Mies van der Rohe the examples discussed in this generously illustrated book expand and enrich the story of the region s built environment Authors Susan Benjamin and Michelangelo Sabatino survey dozens of influential houses by architects whose contributions are ripe for reappraisal such as Paul Schweikher Harry Weese Keck Keck and William Pereira From the bold early example of the Battledock House by Henry Dubin 1930 to John Vinci and Lawrence Kenny s gem the Freeark House 1975 the generation spanning residences discussed here reveal how these architects contended with climate and natural setting while negotiating the dominant influences of Wright and Mies They also reveal how residential clients typically middle class professionals progressive in their thinking helped to trailblaze modern architecture in America Though reflecting different approaches to site space structure and materials the examples in *Modern in the Middle* reveal an abundance of astonishing houses that have never been collected into one study until now
