Tech Olivier Alexandre, 2025-09-23 The first holistic analysis of the space mindset and inner workings of Silicon Valley in a generation Sometimes only an outsider can show how an industry works and how that industry works upon the world In Tech sociologist Olivier Alexandre takes us on a revealing tour of Silicon Valley s prominent personalities and vibrant networks to capture the way its denizens live think relate and innovate and how they shape the very code and conduct of business itself Even seasoned observers will gain insight into the industry s singular milieu from Alexandre s piercing eye He spends as much time with Silicon Valley s major players as with those who fight daily to survive within a system engineered for disruption Embedded deep within the community Alexandre accesses rooms shut tight to the public and reports back on the motivations ambitions and radical vision guiding tech companies From the conquest of space to quantum computing engineers have recast the infinitely large and small Some scientists predict the end of death and the replacement of human beings with machines But at what cost Alexandre sees a shadow hanging over the Valley jeopardizing its future and the economy made in its image Critical yet fair Tech illuminates anew a world of perpetual revolution
