Handbook of Research on Applying Universal Design for Learning Across Disciplines: Concepts, Case Studies, and Practical Implementation

Fovet, Frederic,2021-01-22 Universal design for learning UDL has been hailed for over a decade as a revolutionary lens that allows campuses to shift their efforts to create inclusive environments In recent years UDL has gone beyond the field of disability and been explored with regards to international and indigenous students There is now a sizable body of literature that details the benefits of implementing UDL in higher education as well as a number of emerging studies examining the strategic challenges of developing UDL across institutions There is however still a relative paucity of research discussing the transformation of instruction or assessment in concrete terms Therefore there is a necessity for research and information on UDL that has already been implemented in classrooms and the practical examples of what this process of transformation looks like The Handbook of Research on Applying Universal Design for Learning Across Disciplines Concepts Case Studies and Practical Implementation offers practical examples of UDL having successfully been embedded in courses within various disciplines and classroom formats as well as across the undergraduate and graduate sectors The chapters provide case studies and concrete examples of what the UDL reflection on practice might look like in specific faculties and departments While highlighting UDL in areas such as educational technology student engagement assignment design and inclusive education this book is ideally intended for inservice and preservice teachers administrators teacher educators higher education professors and leaders practitioners researchers academicians and students interested in the integration of UDL into strategic academic plans

Preparing Leaders for Deeper Learning

Marjorie E. Wechsler,Steven K. Wojcikiewicz,2023-10-03 An astute assessment of the educational leadership skills and leadership development practices that align with deeper learning in K 12 schools Preparing Leaders for Deeper Learning spotlights educational leaders as key actors in the urgent task of readying students for college careers and citizenship in an evolving world Marjorie Wechsler and

Steven Wojcikiewicz argue that in response to new understandings of learning and development and emerging societal needs K 12 school leaders must be able to shift institutions toward deeper learning models in which collaboration critical thinking and project based learning are fundamental concepts Through detailed case studies Wechsler and Wojcikiewicz demonstrate how educational leadership development programs can prepare principals to guide their schools teachers and students toward deeper learning and equity They highlight the approaches of five exemplary leadership preparation programs the University of Illinois at Chicago Long Beach Unified School District Arkansas Leadership Academy National Institute for School Leadership and the University of California Berkeley which together serve educational leaders at all career levels from initial training for candidates through in service professional development for seasoned school principals They identify school structures and classroom practices that enable these programs to confer the skill set needed for deeper learning leadership and they describe the education policy priorities that can support school leaders in acquiring these necessary skills This book shows that targeted leadership development is a vital component of transforming schools to create deeper learning opportunities for all students
