1908-10. 2 v Imperial Library, Calcutta,1929 **Subject-index to the author-catalogue. 1908-10. 2 v** National Library (India),1929 The Rhetoric of the Right David L. George,2013 This study seeks to demonstrate the subtle ways in which changes in the language associated with economic issues are reflective of a gradual but quantifiable conservative ideological shift In this rigorous analysis David George uses as his data a century of word usage within The New York Times starting in 1900 It is not always obvious how the changes identified necessarily reflect a stronger prejudice toward laissez faire free market capitalism and so much of the book seeks to demonstrate the subtle ways in which the changing language indeed carries with it a political message This analysis is made through exploration of five major areas of focus economics rhetoric scholarship and the growing behavioral economics school of thought the discourse of government and taxation the changing meaning of competition and competitive changing attitudes toward lab and the celebration of growth relative to the decline in attention to economic justice and social equality The Holy See, Social Justice, and International Trade Law Rev. Dr. Alphonsus Ihuoma,2018-06-30 The Holy See Social Justice and International Trade Law Assessing the Social Mission of the Catholic Church in the GATT WTO System highlights the uniqueness of the Catholic Church as the foremost institution in the world that can confront issues in world trade that affect the common good The distinguished author Rev Dr Alphonsus Ihuoma provides a superbly broad and deep examination that is both scholarly and practical of the mission of the Catholic Church in the world as one that centers on the temporal and eternal needs of humanity His discussion treats thoughtfully the mediatory role of the church in world affairs and argues persuasively that the church has been engaged in this role since its very beginning even before nations embraced organized politics two thousand years ago This remarkable book is a great tool for any reader seeking to know more about the unique position of the church in world affairs especially in the GATT WTO system The book rightly lauds the churchs achievements in history But it equally and rightly argues that the church must do more to address present challenges in the world trading system Readers will be enlightened by the treatment of the failures of the GATT WTO system in pursuing the objectives for which it was established the churchs efforts to pursue vital related objectives and the need for her to do more **The Standard of Review in WTO Dispute Settlement** Ross Becroft,2012-01-01 Applying the proper standard of review has been a vexing issue for WTO panels and Members alike As in national systems the degree to which the reviewing body here the panel defers to the investigating authority is frequently controversial Dr Becroft has provided a thorough analysis of the WTO jurisprudence to date identified the shortcomings of the present approach and offered a thoughtful series of recommendations for formulating a new and better standard of review David A Gantz The University of Arizona US Ross Becroft has produced a solid monograph which adds to the existing literature on the correct standard of review to be applied by a WTO panel Becroft s work is well research and written and his

analysis is straight forward and comprehensive His call for a new standard of review is well thought out creative and feasible Becroft's book is recommended reading for those interested in the workings and decision making in WTO dispute settlement Bryan Mercurio The Chinese University of Hong Kong This is an important book and should be considered to be on the required reading list of anyone professionally involved in dispute settlement at the WTO The standard of review is at the core of the dispute settlement process and Ross Becroft has made a major contribution with his comprehensive and insightful analysis and suggestions for a new standard of review for the future Andrew Stoler Executive Director Institute for International Trade and former WTO Deputy Director General This detailed book critiques how the World Trade Organization scrutinizes domestic measures to determine compliance with the WTO Agreements This scrutiny known as the standard of review is particularly relevant when WTO panels are examining measures involving controversial domestic policy issues The author argues that the current WTO standard of review is inadequate and a flexible standard based on the responsibilities that WTO members have retained for themselves under the WTO Agreements is preferable This new standard of review would better reflect the autonomy contemplated for members under the WTO rules and reduce scope for the contention that the WTO overreaching its mandate This work provides a foundation for mediating relations between states and the WTO and similar international organisations It will be of great interest to scholars and practitioners in the fields of law and international relations with an interest in international economic law the WTO or international organisations in general
