D. Innes, 1979-12-12 In this impressively wide

ranging study of all drama written in German in the period 1945-1977 Christopher Innes aims to identify the concerns and perceptions of dramatists working in a specific and unique social context and period and to analyse the major theatrical forms they developed or adapted to express their experience to trace the writers literary antecedents their tradition and to explore the critical issues raised by each stylistic innovation Professor Innes has organized his discussion around the main forms of theatre epic documentary absurdist and more traditional forms Redefining these conceptual labels as he progresses he analyses in a critical and informed way the work on the page and the stage of all the major playwrights This study which is complemented by photographs of key productions and accompanied by translations for all quotations will be of particular

interest to teachers and students of drama and German as well as to a wider theatre going public **Approaches to the Visual in Religion** Daria Pezzoli-Olgati, Christopher Rowland, 2011-06-16 The authors of this volume investigate the analysis of visual sources and their indispensable role for understanding and interpreting religions their symbol systems and the wider traditions of which they are a part A particular interest in this study is the focus on the methodological challenge of images from a comparative perspective The common concern that ranges over all the contributions is the search for a methodological perspective where images may be analysed in a comprehensive way with particular regard for the social and wider intellectual settings as well as the religious in which the images are embedded Accordingly we seek to show that visual sources need to be interpreted from different angles In the last decades a broad range of publications has contributed to highlight the significance of images and visual media in general for understanding religious traditions communities and discourses in both historical and contemporary perspective In more recent research streams focussing on visual media in religious traditions and symbol systems various avenues have opened up and been explored focussing on the status of images and of the gaze of the viewer as central aspects Furthermore there are illuminating contributions dealing with the theoretical premises and settings with which to approach the visual as a central component of religion on the one hand giving an overview of essential definitions and implications on the other hand concentrating on specific techniques and or media

Cousins at One Remove: Anglo-German Studies: 2nd: Cousins at One Remove R.F.M. Byrn, 2017-12-02 This collection of essays is a sequel to *Anglo German Studies* published in 1992 by the Leeds Philosophical and Literary Society The emphasis of this volume is on the English reception of German literature **Durrenmatt** Timo Tiusanen, 2015-03-08 Durrenmatt's apparently conflicting statements about his central concerns have baffled scholars attempting to interpret his works In his critical approach to Durrenmatt Timo Tiusanen emphasizes the author's relation to the theater and analyzes the thirteen original stage plays eight radio plays and five adaptations using the special concept of scenic image developed in an earlier study of O'Neill Four books by Durrenmatt on the theater and politics are related to the dramatist's creative practice and his six books of prose are also carefully considered Exploring the writer's career to reconcile conflicting attitudes that have been taken toward his work Timo Tiusanen sees Durrenmatt's writings as representing a persistent effort to express artistically a paradoxical view of the world Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *German Film & Literature* Eric Rentschler, 2013-10-15 First Published in 1986 This collection of essays by an international team of scholars is the first sustained investigation in any language of the historical interactions between German film and literature It is a book about

adaptations and transformations about why filmmakers adapt certain material at certain times The major impetus at work is the desire to expand the field of adaptation study to include sociological theoretical and historical dimensions and to bring a livelier regard for intertextuality to the studies of German film and literature It is concerned with the ways in which filmmakers in Germany from Pabst and von Sternberg to Fassbinder Herzog and Sanders Brahms have engaged and been engaged by literary history

Understanding Fr Roger Alan Crockett, 1998 This introductory volume explores the playwright's chaotic universe where God has retreated beyond the stars and where blind chance is the real prime mover justice is corruptible ideologies useless and tragedy no longer possible Yet despite the overriding pessimism of Dürrenmatt's *Weltanschauung* the author argues that the playwright remains a genial master of comedy Through the laughter he allows his readers to see that all is not lost that there are virtues worth fighting for and that there are still courageous Don Quixotes worthy of the title hero Crockett contends that as a theorist of the modern German stage Dürrenmatt challenges Bertolt Brecht and offers alternatives As a craftsman of prose fiction he fashions the stout thread with which the readers enter his labyrinths and eventually find their way back out while his literary Theseuses clinging to gossamer strands sometimes fall prey to the monster in the maze
