range The New York Times Book Review takes us on an epic journey through human cultures offering a startling new view of the world and ourselves With a mix of brilliantly conceived studies and surprising on the ground discoveries she shows that much of the diversity in the way we think and act derives from a key difference how tightly or loosely we adhere to social norms Just as DNA affects everything from eye color to height our tight loose social coding influences much of what we do Why are clocks in Germany so accurate while those in Brazil are frequently wrong Why do New Zealand s women have the highest number of sexual partners Why are red and blue states really so divided Why was the Daimler Chrysler merger ill fated from the start Why is the driver of a Jaguar more likely to run a red light than the driver of a plumber s van Why does one spouse prize running a tight ship while the other refuses to sweat the small stuff In search of a common answer Gelfand spent two decades conducting research in more than fifty countries Across all age groups family variations social classes businesses states and nationalities she has identified a primal pattern that can trigger cooperation or conflict Her fascinating conclusion behavior is highly influenced by the perception of threat A useful and engaging take on human behavior Kirkus Reviews with an approach that is consistently riveting Rule Makers Ruler Breakers thrusts many of the puzzling attitudes and actions we observe into sudden and surprising clarity *Financial Failures and Scandals* Krish Bhaskar,John

Flower,2019-04-16 This concise volume evaluates the cause and significance of recent corporate failures and financial scandals and how they reflect on the fitness for purpose of the external auditors financial reports financial watchdogs boards directors and senior management Failures like the disastrous collapse of Carillion examined at length have ultimately led to a crisis of confidence not only in the audit process but in the entire process of financial reporting Revealing the shortcomings in audit quality independence choice and the growing expectation gap *Financial Failures and Scandals* questions if the profession its regulators or government watchdogs are adequately prepared for the challenges of increasing regulation public outcry and political scrutiny in the face of inevitable future financial failures The fundamental structures of financial reporting annual reports boards of directors and senior management are often found to have failed Tighter regulation and new requirements for reporting will inevitably result Drawing on extensive research and interviews with insiders users and experts this unique book provides a compelling account of the profoundly disruptive impact of financial failures on corporate and financial accountability Topical and readable this book will be of great interest to students researchers and professionals in accounting and auditing as well as to policy makers and regulators

Strategic Marketing For Health Care

Organizations Philip Kotler,Robert J. Stevens,Joel I. Shalowitz,2021-02-17 A thorough update to a best selling text emphasizing how marketing solves a wide range of health care problems There has been an unmet need for a health care marketing text that focuses on solving real world health care problems The all new second edition of *Strategic Marketing for Health Care Organizations* meets this need by using an innovative approach supported by the authors deep academic health management and medical experience Kotler Stevens and Shalowitz begin by establishing a foundation of marketing

management principles A stepwise approach is used to guide readers through the application of these marketing concepts to a physician marketing plan The value of using environmental analysis to detect health care market opportunities and threats then follows Readers are shown how secondary and primary marketing research is used to analyze environmental forces affecting a wide range of health care market participants The heart of the book demonstrates how health management problems are solved using marketing tools and the latest available market data and information Since the health care market is broad heterogenous and interconnected it is important to have a comprehensive perspective Individual chapters cover marketing for consumers physicians hospitals health tech companies biopharma companies and social cause marketing with strategies in this last chapter very relevant to the Covid 19 pandemic Each chapter gives readers the opportunity to improve marketing problem solving skills through discussion questions case studies and exercises

Markets in Vice, Markets in Virtue John Braithwaite, 2005 What have the market forces of supply and demand to do with making the tax system more equitable John Braithwaite argues that the competition policies that attack monopolies to ensure vigorous price competition and more efficient production of goods also drive more efficient production of bads Tax avoidance like any good or service follows market logic as the supply increases so does the demand Braithwaite makes this argument and explores its implications through a detailed comparative case study of taxation in the United States and Australia He shows that it is possible to flip markets in the vice of tax avoidance to markets in the virtue of tax system integrity Braithwaite sets out specific regulatory strategies and gives examples of how these might be applied The result is a blueprint for restoring the equity of Western tax systems and a breakthrough theory of how regulators can support markets in virtue and curtail markets in vice Markets in Vice Markets in Virtue is essential reading for anyone involved in policy governance and regulation It has profound implications for business and is of special interest to those working in taxation
