A Transformatory Ethic of Inclusion Jayne Clapton,2009-01-01 Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo Christian societies Inclusion is most often considered within socio historical and socio political contexts whereby technical and legislative responses are sought However this book explores the question How ethically defensible is the notion of inclusion in relation to people with intellectual disability The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous

relationship with exclusion It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics an Ethic of Normalcy and an Ethic of Anomaly Inclusion and exclusion are conceived as phenomena relating to how membership is defined legitimated or repelled by concealed occluding boundaries acting within a patriarchal socio ethical fabric The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool A Transformatory Ethic of Inclusion This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability A concept of integrality becomes imaginable Conceptual analysis is framed using a crafting metaphor of a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed **Up Your Teaching Game** Janna Jackson
