**Research into Design for a Connected World** Amaresh Chakrabarti, 2019-01-08. This book showcases cutting edge research papers from the 7th International Conference on Research into Design (ICoRD 2019), the largest in India in this area, written by eminent researchers from across the world on design processes, technologies, methods and tools, and their impact on innovation for supporting design for a connected world. The theme of ICoRD 19 has been Design for a Connected World. While Design traditionally focused on developing products that worked on their own, an emerging trend is to have products with a smart layer that makes them context aware and responsive individually and collectively through collaboration with other physical and digital objects with which these are connected. The papers in this volume explore these themes, and their key focus is connectivity: how do products and their development change in a connected world? The volume will be of interest to researchers, professionals and entrepreneurs working in the areas of industrial design, manufacturing, consumer goods and industrial management who are interested in the use of emerging technologies such as IoT, IIoT, Digital Twins, Industry 4.0 etc., as well as new and emerging methods and tools to design new products, systems and services.

*Filosofía de la Restauración* Lino

García Morales,2020-08-21 La Restauración de arte es una disciplina joven desarrollada a partir de teorías que suelen poner el foco en determinado tipo de prácticas según el relato del arte Este libro propone un enfoque desde la filosofía basado en la sustancia de la obra de arte como objeto de Restauración Este punto de vista permite analizar los problemas de tipificación lógica que surgen de las teorías como posibles soluciones En Después del fin de la Restauración se define la Restauración como una disciplina inmanente al arte su objeto En este contexto se hace necesaria una redefinición del arte en términos de un relato diferente dado por la sustancia de la obra de arte y no por su cronología histórica definición que abarca hasta la proclamación del fin del arte y determina el fin de la Restauración ambos fines simbólicos conceptuales operativos La sustancia de la obra de arte no es un todo homogéneo tiene tanto de físico como de metafísico y la obra de arte puede ser tratada como un objeto una cosa de carácter sistémico Esto que es menos relevante para el relato del arte sólo es para el relato de la Restauración De qué hablamos cuando hablamos de arte De qué hablamos cuando hablamos de Restauración De qué hablamos cuando hablamos de autenticidad originalidad valorCuál es la relación entre Restauración autenticidad originalidad y valor del arte Es necesario hablar de una filosofía de la Restauración y no de una teoría de la Restauración Es conveniente este enfoque sistémico holístico Por qué Estas son solo algunas de las preguntas claves de esta primera parte
