Banished to the Homeland David Brotherton,Luis Barrios,2011 The 1996 U S Immigration Reform and Responsibility Act has led to the forcible deportation of tens of thousands of Dominicans from the United States Following thousands of these individuals over a seven year period David C Brotherton and Luis Barrios use a unique combination of sociological and criminological reasoning to isolate the forces that motivate emigrants to leave their homeland and then commit crimes in the Unites States violating the very terms of their stay Housed in urban landscapes rife with gangs drugs and tenuous working conditions these individuals the authors find repeatedly play out a tragic scenario influenced by long standing historical injustices punitive politics and increasingly conservative attitudes undermining basic human rights and freedoms Brotherton and Barrios conclude that a simultaneous process of cultural inclusion and socioeconomic exclusion best explains the trajectory of emigration settlement and rejection and they mark in the behavior of deportees the contradictory effects of dependency and colonialism the seductive draw of capitalism typified by the American dream versus the material needs of immigrant life the interests of an elite security state versus the desires of immigrant workers and families to succeed and the ambitions of the Latino community versus the political realities of those designing crime and immigration laws which disadvantage poor and vulnerable populations Filled with riveting life stories and uncommon ethnographic research this volume relates the modern deportee s journey to broader theoretical studies in transnationalism assimilation and social control

The Earth Charter, Ecological Integrity and Social

Movements Laura Westra, Mirian Vilela, 2014-06-20 The Earth Charter is a declaration of fundamental ethical principles for building a just sustainable and peaceful global society with ecological integrity as a major theme This book provides a series of analyses of ecological integrity as it relates to the Earth Charter social movements and international law for human rights It is shown how the Earth Charter project began as a United Nations initiative but it was carried forward and completed by a global civil society initiative The drafting of the Earth Charter involved the most inclusive and participatory process of its time ever associated with the creation of an international declaration This process is the primary source of its legitimacy as a guiding ethical framework The Earth Charter was finalized and then launched in 2000 and its legitimacy has been further enhanced by its endorsement by over 6 500 organizations including many governments and international organizations In the light of this legitimacy an increasing number of international lawyers recognize that the Earth Charter is acquiring the status of a soft law document The book also shows the strong connection between ecological integrity and social justice particularly in the defence of indigenous people and includes contributions from both the North and the global South specifically from Central and South America
