Marie-France Pochna,2021-10-26 The House of Dior's official biography reveals the secretive and surprising man who revolutionized fashion with new insight on his spirituality and relationships and a contemporary perspective on his legacy In 1947 when Christian Dior's model spun her wasp waisted skirt and tipped a hat over one eye the iconic designer became an instant celebrity His groundbreaking New Look was quintessentially Parisian the perfect combination of fanciful and elegant that glorified the female form and seduced his international clientele Yet it was by mere chance that Dior hapless in the face of personal and professional tragedy met a friendly priest who helped him to rebuild his faith and to find the strength to chart his glorious destiny He went on to upend the downtrodden postwar era with his joie de vivre and his pursuit of a single goal to make women not only more beautiful but happier through the proportions of his marvelous designs and a color palette that reflected the Parisian sky Today the legacy of this witty yet staunchly private man shines on as his intuitive creativity continues to inspire the House of Dior's designers to reinvent the woman of tomorrow **10 000 years of luxury** Olivier Gabet,2019-10-30T00:00:00+01:00 The exhibition 10 000 Years of Luxury Louvre Abu Dhabi 30 October 2019 18 February 2020 explores the multifaceted nature of luxury from ancient times to the present day Its catalogue allows the reader to explore luxury through fashion jewellery visual art furniture and design with masterpieces from the collections of international institutions and brands Highlights among the objects presentes include the oldest pearl in the world the renowned Boscoreale Treasure one of the largest collections of silverware preserved from Roman Antiquity and dresses and jewellery from design houses such as Cartier Maison Van Cleef Arpels CHANEL Christian Dior ELIE SAAB and Yves Saint Laurent **Skirts** Kimberly Chrisman-Campbell,2022-09-06 In a sparkling beautifully illustrated social history Skirts traces the shifting roles of women over the twentieth century through the era's most iconic and influential dresses While the story of women's liberation has often been framed by the growing acceptance of pants over the twentieth century the most important and influential female fashions of the era featured skirts Suffragists and soldiers marched in skirts the heroines of the Civil Rights Movement took a stand in skirts Frida Kahlo and Georgia O'Keeffe revolutionized modern art and Marie Curie won two Nobel Prizes in skirts When NASA put a man on the moon the computer wore a skirt in the words of one of those computers mathematician Katherine G Johnson As women made strides towards equality in the vote the workforce and the world at large their wardrobes evolved with them They did not need to wear the pants to be powerful or progressive the dress itself became modern as designers like Mariano Fortuny Coco Chanel Jean Patou and Diane von Furstenberg redefined femininity for a new era Kimberly Chrisman Campbell's Skirts looks at the history of twentieth century womenswear through the lens of game changing styles like the little black dress and the Bar Suit as well as more obscure innovations like the Taxi dress or the Pop Over dress which came with a matching potholder These influential garments illuminate the times in which they were first worn and the women who wore them while continuing to shape contemporary fashion and even opening the door for a genderfluid future of skirts At once an authoritative work of history and a delightfully entertaining romp through

decades of fashion Skirts charts the changing fortunes freedoms and aspirations of women themselves **Patternmaking History and Theory** Jennifer Grayer Moore,2019-09-05 Fashion design is increasingly gaining attention as an important form of cultural expression However scholarship has largely focused on specific designers and their finished products This collection reveals the crucial foundational art and craft of patternmaking design with essays that explore the practice in specific historical and cultural contexts Probing the theoretical underpinnings that inform patternmaking Patternmaking History and Theory interrogates topics that span cultures and time periods ranging from high fashion to home sewing Taking the reader from women s making and mending for victory during World War Two to Jamaican dress history and today s complex 3D pattern cutting software the book examines the creative aspect of a culturally rich skill Beautifully illustrated and rooted in original research Patternmaking History and Theory brings together a group of leading international scholars to provide a range of perspectives on a key but often overlooked aspect of design In the Mood for Cheongsam Lee Chor Lin,Chung May Khuen,2012-10-16 Spanning almost a century this book examines the origins and development of the cheongsam in the social context of Singapore since its introduction from Shanghai in the 1920s
