Discharge From Hospital Pathway Process And Practice:

Discharge from Hospital, 2003 **Timely Discharge from Hospital** Liz Lees, 2012 Following on from the very popular first book *OCyNurse Facilitated Hospital Discharge* OCOOCyIn these challenging economic times with change and cost saving being predominant features in the NHS I offer you the reader a thought OC The faster the speed at which you travel the further ahead you need to lookOCO to adapt current practice and align it to future needs to deliver value for money OCOLiz LeesTimely Discharge From Hospital is aimed at practitioners working in acute community intermediate and ambulatory care settings all areas of practice are featured Each section is arranged in themes but written to stand alone allowing the reader to dip in and out The book is further enhanced by a comprehensive selection of case studies Part 1 Fundamental perspectives of practice OCo there are 3 leading chapters which set the scene for the discharge of patients from hospital Part 2 The UK perspective OCo there are 4 chapters which demonstrate policy practice and progress regarding discharge planning in England Ireland Scotland and Wales Part 3 Education and training OCo there are 3 chapters which interface theory with practice providing a sense of direction in education to lead and support practitioners wishing to develop mechanisms for training Part 4 Multi professional considerations of patient discharge in practice OCo there are 7 chapters which explore the contribution of different professionals to timely discharge practice The Nursing coordination complex discharge issues Pharmacy PALs Medicine Occupational Therapy and Bed management are all featured Part 5 Case examples in practice OCo There are 14 pragmatic cases which illuminate practice points from a clinical perspective *Nursing the Surgical Patient* Rosemary Pudner, 2005-01-01 Discusses all types of surgery so will be applicable to nurse working in all settings where they will encounter patients recovering from surgery The nursing care is underpinned by the relevant research findings to ensure evidence based practice Focuses on nursing role and so is relevant to readers needs Relevant A P and relevant pathophysiology are covered to aid understanding of the common disorders that require surgical intervention Learning objectives assist study Use of care plans and case studies help relate theory to practice Boxes highlight key points and examples to aid study A full glossary of key terms aids comprehension Summaries of key points aid revision Elsevier website **Nursing the Surgical Patient** Rosie Pudner, 2010-03-22 The new edition of this highly successful text brings it fully up to date with recent developments in surgical nursing and includes a new chapter on perioperative stress and anxiety The need for surgical nurses to remain at the cutting edge in relation to their knowledge and skills has never been greater as the demands of higher patient throughput and reduced hospital stays take their toll Nursing the Surgical Patient is written for and by nurses It adopts a patient centred approach to the care of people requiring a wide variety of surgical procedures Compiled by experienced practitioners and educators in the field it covers relevant anatomy and physiology investigations brief information on relevant medical conditions leading to surgery an outline of the surgical procedures and the nursing care the patient will require The key nursing care issues are described and explored with case studies and care plans to bring

theory to life Comprehensive and research based yet accessible and engaging Nursing the Surgical Patients a vital companion to nurses caring for surgical patients in either the primary or secondary care setting This title is directed primarily towards health care professionals outside of the United States *District Nursing Manual of Clinical Procedures* Liz O'Brien, 2012-05-07 This manual the first of its kind focused on district nursing provides the means to build competence and confidence in nurses new to the community or developing their skills The comprehensive and evidence based content provides essential information for competence in key areas of district nursing From the Foreword by Rosemary Cook CBE Hon D Lett MSc PG Dip RGN Director The Queen s Nursing Institute Clinical skills are a fundamental aspect of district nursing care The District Nursing Manual of Clinical Procedures is a practical evidence based manual of clinical skills which reflects the unique challenges of district nursing care within the patient s home It provides a comprehensive resource for all district nurses community nurses students and healthcare professionals involved in the district nursing team enabling them to practice competently and confidently and deliver clinically effective person centred care The District Nursing Manual of Clinical Procedures addresses the complexity of district nursing care and encompasses key aspects of clinical practice including decision making in areas that district and community nurses often struggle with or find difficult when they are on their own in a patient s home It utilises the latest clinical research and expert clinical knowledge to address these challenges and to provide the underlying theory and evidence for district nursing care Key features Evidence based manual of practical clinical skills in district nursing care Clear user friendly and easy to understand Contains recommendations for expert care within a patient s own home Addresses key concerns of district and community nurses working on their own within a patient s home Encompasses key aspects of district nursing care Placed in the context of person centred care All procedures include the rationale for each action why as well as how This title is also available as a mobile App from MedHand Mobile Libraries Buy it now from iTunes Google Play or the MedHand Store **The Royal Marsden Manual of Clinical Nursing Procedures** Lisa Dougherty, Sara Lister, Alex West-Oram, 2015-03-17 The Royal Marsden Manual of Clinical Nursing Procedures has been the number one choice for nurses since it first published over 30 years ago One of the world s most popular books on clinical skills and procedures it provides detailed procedure guidelines based on the latest research findings and expert clinical advice enabling nurses and students to deliver clinically effective patient focused care The ninth edition of this essential definitive guide written especially for pre registration nursing students now includes a range of new learning features throughout each chapter that have been designed to support student nurses to support learning in clinical practice Providing essential information on over 200 procedures this manual contains all the skills and changes in practice that reflect modern acute nursing care *Ensuring the Effective Discharge of Older Patients from NHS Acute Hospitals* Great Britain. National Audit Office, 2003 In September 2002 8.9 per cent of older patients occupying NHS acute care beds had already been declared fit to leave hospital but had not yet done so for a variety of reasons This equates to more than 4

100 older patients on any given day although this is significantly lower than at the same point in 2001 The Government aims to end widespread delayed discharge by 2004 Data has only been collected centrally since 1997 but this data needs to be standardized further There are plans to introduce a Single Assessment Process to make assessment more efficient and more focused on the patient and patients and carers must be more closely involved with decision making

Prevention and Management of Hip Fractures Liz Onslow, 2005-11-29 Fractured neck of femur is a condition greatly feared by many elderly people In my work as a ward sister and specialist nurse I have come to recognize the unique challenges associated with caring for patients with femoral neck fracture Their journey of care is a complex one which needs to be well managed from the moment they arrive in the Accident and Emergency department until their discharge from the acute environment through the rehabilitation process and their eventual discharge With improved knowledge and a commitment to preventative strategies we can do much to help reduce the incidence of hip fracture in the future The aim of this book is to develop the reader's knowledge and skills in both theory and practice and to encourage readers to apply this knowledge when caring for people who have fractured their hip The book emphasizes the importance of collaborative working to promote effective rehabilitation and improve outcomes This book will serve as a comprehensive resource for any nurse or allied health professional whose working life brings them into contact with people who have sustained a femoral neck fracture and assist nurses them to meet the complex needs of this client group

BMJ, 2009 **Intermediate Care of Older People** Siân Wade, 2004 Intermediate care has become a buzzword within health and social care especially with regard to the care of older people This text explores what is understood by the concept of intermediate care and in particular ways in which the needs of older people can be best met by this range of services

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 2007 **A Survival Guide to Later Life** Marion Shoard, 2004 As people today reach their middle years many become worried by the increasing responsibility of caring for their elderly parents or other relatives People in the West are generally living longer and older people themselves also wonder what they can do to make their final years as troublefree as possible This guide provides answers to crucial questions we face in old age including advice about gadgets and aids financial and legal issues hiring help finding the right kind of sheltered accommodation and getting the most out of the support available

The Health and Social Care Divide Jon Glasby, Rosemary Littlechild, 2004 By focusing specifically on the experiences of older people an especially vulnerable group when divisions emerge between health and social care providers the authors are able to highlight in detail issues and recommendations that are applicable in a wide range of settings

Older People and the Law Ann McDonald (lecturer in social work.), Margaret Taylor (LL. B.), 2006 This book is a revised and updated edition of *Elders and the Law* PEPAR Publications 1993 It describes the legal framework for working with older people following the modernising agenda in health and social care and the length has been considerably expanded to enable topics to be dealt with more comprehensively It covers the range of legal issues affecting the welfare and

financial security of older people in the community and residential settings and emphasises the empowering nature of legal knowledge It also describes and explains the application of law and policy relating to older people in the context of social work practice Older People and the Law is aimed at all professionals working with older people but particularly social workers Its clarity of style means that older people themselves and carers will find it accessible BOOK JACKET

The Royal Marsden Hospital Handbook of Cancer Chemotherapy David Brighton, Miriam Wood, 2005 The Royal Marsden Hospital Handbook of Cancer Chemotherapy is a unique resource for health care professionals caring for patients with cancer It gives a detailed overview of disease specific management treatment regimens and supportive care The roles and skills required by staff and the problems that may arise for patients undergoing chemotherapy treatment are highlighted The book has been written for a multi professional audience both qualified and in training including medical staff pharmacists rehabilitation therapists nurses and those requiring a greater understanding of caring for patients undergoing chemotherapy BOOK JACKET

Nursing Older People Sally J. Redfern, Fiona Ross, 2006 Nursing Older People focuses on evidence based care and the effectiveness of interventions that support independence It takes a person centred approach to understanding and meeting the needs and problems that nurses and other practitioners deal with every day such as the need to reduce the difficulties faced by problems of pain immobility breathlessness eating and drinking and eliminating for example The accessible evidence based information in this book will help to give practitioners the confidence to challenge the status quo and look for ways to improve the quality of care BOOK JACKET
