General Conditions of Contract for Construction Works, 2020 The new GCC Short Form fills a gap in the SAICE's portfolio of contract documents where a more streamlined document suitable for Minor Works projects and without the need for extensive detailed contract conditions which are required in larger more complex projects often extending over long time frames Minor Works projects are not only those which cost little or are repetitive or are of short duration or are confined to only engineering or only building or the design is fully complete but are those projects which are usually

characterised by more than one single criterion or a combination of the criteria described above Minor Works means a type of construction project which can be determined from certain characteristics or attributes as described below If out of the 5 main criteria shown below criterion 1 strictly applies together with any one or more of the other four then the Short Form is suitable The GCC Short Form is to be used with the contract documentation format as prescribed by legislation SANS 10845 and in conjunction with SANS 1921 This is to set out the requirements and constraints relating to the manner in which the contract work is to be performed <https://saice.org.za/saice/publications>
