Dmitri Shostakovich Catalogue Derek C. Hulme, 2010-02-18 Dmitri Shostakovich 1906-75 was one of the greatest composers of the 20th century as well as the first major Soviet composer. In the fourth edition of *Dmitri Shostakovich Catalogue: The First Hundred Years and Beyond*, Derek C. Hulme names and describes all known musical compositions of the Russian composer. More than 175 major works are annotated and discussed, including such comprehensive details as titles and subtitles, dates of composition, instrumentation, and duration; information on dedications and premieres; arrangements by the composer and others; publication details; notes on bibliographical references; and the location of the autograph score and comprehensive chronological lists of vinyl, compact disc, and visual recordings. The entries are presented chronologically and by opus number, while indexes of names and compositions provide full accessibility. Several appendixes supplement the volume, guiding readers to further information in published sources and providing information on the composer's film, radio, television, and theatre productions; his abandoned projects and obscure works; and his recordings, including box sets and special USSR recordings. An appendix also discusses the monogram DSCH, a musical motif based on his name that permeates his compositions. This new edition also includes a comprehensive chronological chart of Shostakovich's works and historical events and several plates of memorabilia.

Chamber Music John H. Baron, 2010-06-10 *Chamber Music: A Research and Information Guide* is a reference tool for anyone interested in chamber music. It is not a history or an encyclopedia, but a guide to where to find answers to questions about chamber music. The third edition adds nearly 600 new entries to cover new research since publication of the previous edition in 2002. Most of the literature is books, articles in journals and magazines, dissertations and theses, and essays or chapters in *Festschriften*, treatises, and biographies. In addition to the core literature, obscure citations are also included when they are the only studies in a particular field. In addition to being printed, this volume is also for the first time available online. The online environment allows for information to be updated as new research is introduced. This database of information is a live resource, fully searchable, and with active links. Users will have unlimited access; annual revisions will be made, and a limited number of pages can be downloaded for printing.

Postmodernity's Musical Pasts Tina Frühauf, 2020 *Postmodernity's Musical Pasts* covers topics from classical to popular and neo-traditional musics to concerns of the disciplines of musicology. Such varied topics mirror the eclectic and diverse nature of the postwar era itself.

String quartet no. 8, op. 110 Dmitrii Dmitrievich Shostakovich, 1961 The String Quartet no. 8 in C minor, opus 110, the most loved of all Shostakovich's quartets, has a duration of about twenty minutes. Highly popular, it is performed more frequently than all of the other fourteen together. Despite its popularity, the work evokes feelings of gloom and melancholy.

The Eighth is the only substantial work that Shostakovich composed outside Russia. It was written in 1960 whilst Shostakovich was visiting the former Communist State of East Germany. The anguish of the quartet according to Shostakovich reflected his thoughts on visiting the ruined city of Dresden. But this explanation did not long survive Shostakovich's death in 1975. In 1979 a book appeared in the West entitled *Testimony* which claimed to be the composer's memoirs, told to and subsequently edited by an associate, Solomon Volkov. The book was highly controversial because it showed Shostakovich not as the passive supporter of the Soviet regime the role in which Western critics had placed him but as a closet dissident. Protests followed the book's publication. It was first accused of being a forgery which in parts it was but it was also hailed as reflecting the spirit of Shostakovich's thoughts which it is now generally believed to do. <http://www.quartets.de/compositions/ssq08.html> **Catalog of Copyright Entries** Library of Congress.
