Dmt And The Soul Of Prophecy A New Science Spiritual Revelation In Hebrew Bible Rick Strassman:

DMT and the Soul of Prophecy Rick Strassman, 2014-09-18 Naturally occurring DMT may produce prophecy like states of consciousness and thus represent a bridge between biology and religious experience Reveals the striking similarities between the visions of the Hebrew prophets and the DMT state described by Strassman s research volunteers Explains how prophetic and psychedelic states may share biological mechanisms Presents a new top down theoneurological model of spiritual experience After completing his groundbreaking research chronicled in DMT The Spirit Molecule Rick Strassman was left with one fundamental question What does it mean that DMT a simple chemical naturally found in all of our bodies instantaneously opens us to an interactive spirit world that feels more real than our own world When his decades of clinical psychiatric research and Buddhist practice were unable to provide answers to this question Strassman began searching for a more resonant spiritual model He found that the visions of the Hebrew prophets such as Ezekiel Moses Adam and Daniel were strikingly similar to those of the volunteers in his DMT studies Carefully examining the concept of prophecy in the Hebrew Bible he characterizes a prophetic state of consciousness and explains how it may share biological and metaphysical mechanisms with the DMT effect Examining medieval commentaries on the Hebrew Bible Strassman reveals how Jewish metaphysics provides a top down model for both the prophetic and DMT states a model he calls theoneurology Theoneurology bridges biology and spirituality by proposing that the Divine communicates with us using the brain and DMT whether naturally produced or ingested is a critical factor in such visionary experience This model provides a counterpoint to neurotheology which proposes that altered brain function simply generates the impression of a Divine human encounter Theoneurology addresses issues critical to the full flowering of the psychedelic drug experience Perhaps even more important it points the way to a renewal of classical prophetic consciousness the soul of Hebrew Bible prophecy as well as unexpected directions for the evolution of contemporary spiritual practice Zen Judaism Christopher L. Schilling, 2021-05-04 Contemporary Judaism is transforming especially in America from a community experience to more of a do it yourself religion focused on the individual self In this book Christopher L Schilling offers a critique of this transformation Schilling discusses problematic aspects of Jewish mindfulness meditation and the relationship between Judaism and psychedelics proceeding to explore the science behind these developments and the implications they have for Judaism Death by Astonishment Andrew R. Gallimore, 2025-07-01 For fans of the compelling critical and investigative style of best selling authors Graham Hancock and Brian Muraresku the first detailed account of the history and science of the world s strangest and most mysterious drug DMT DMT is the world s strangest and most mysterious drug inducing one of the most remarkable and yet least understood of all states of consciousness This common plant molecule has from ancient times to the modern day been used as a tool to gain access to a bizarre alien reality of inordinate complexity and unimaginable strangeness populated by a panoply of highly advanced intelligent and communicative beings entirely not of this world In a

story that begins in the Amazonian rainforests and ends somewhere beyond the stars Andrew Gallimore presents the first detailed account of the discovery of DMT and science's continuing struggle to explain how such a simple and common plant molecule can have such astonishing effects on the human mind The history of the drug involves many fascinating characters from the scientific and literary worlds including legendary ethnobotanist Dr Richard Schultes renegade beat writer and drug aficionado William S Burroughs philosopher and raconteur Terence McKenna and the high priest of the 1960s psychedelic revolution Dr Timothy Leary In the end the story of DMT forces us to reconsider our most basic assumptions about the nature of reality and our place within it

Mystery School in Hyperspace Graham St John, 2015-11-24 Since the mid 1950s the psychoactive compound DMT has attracted the attention of experimentalists and prohibitionists scientists and artists alchemists and hyperspace emissaries While most known as a crucial component of the jungle alchemy that is ayahuasca DMT is a unique story unto itself Until now this story has remained untold Mystery School in Hyperspace is the first book to delve into the history of this substance the discovery of its properties and the impact it has had on poets artists and musicians DMT has appeared at crucial junctures in countercultural history William Burroughs was jacking the spice in Tangier at the turn of the 1960s It was present at the meeting between Ken Kesey's Merry Pranksters and Tim Leary's associates It guided the inception of the Grateful Dead in 1965 It showed up in Berkeley in the same year falling into the hands of Terence McKenna who would eventually become its champion in the post rave neo psychedelic movement of the 1990s Its indole vapor drifted through Portugal's Boom Festival and has been evident at Nevada's Burning Man where DMT has been adopted as spiritual technology supplying shape color and depth to a visionary art movement The growing prevalence of use is evident in a vast networked independent research culture and in its impact on fiction film music and metaphysics As this book traces the effect of DMT's release into the cultural bloodstream the results should be of great interest to contemporary readers The book permits a broad reading audience to join ongoing debates in studies in consciousness and theology where the brain is held to be either a generator or a receiver of consciousness The implications of the spirit molecule or the brain's own psychedelic among other theories illustrate that DMT may lift the lid on the Pandora's Box of consciousness Features a foreword by Dennis McKenna cover art by Beau Deeley and thirty color illustrations by various artists including Alex Grey Android Jones Martina Hoffmann Luke Brown Carey Thompson Adam Scott Miller Randal Roberts along with Jay Bryan Cyb Orryelle Defenestrade Bascule Art Van D lay Stuart Griggs Jay Lincoln Gwyllm Llwydd Shiptu Shaboo Marianna Stelmach and Mister Strange Regarded as the nightmare hallucinogen or celebrated as the spirit molecule labelled psychotogenic or entheogenic considered a dangerous drug or the suspected X factor in the evolution of consciousness DMT is a powerful enigma Documenting the scientists and artists drawn into its sphere of influence navigating the liminal aesthetics of the breakthrough experience tracing the novum of hyperspace in esoteric and science fiction currents Mystery School in Hyperspace excavates the significance of this enigmatic phenomenon in the modern world

Exposing a great many myths this cultural history reveals how DMT has had a beneficial influence on the lives of those belonging to a vast underground network whose reports and initiatives expose drug war propaganda and shine a light in the shadows This conversation is highly relevant at a time when significant advances are being made to lift the moratorium on human research with psychedelics

Everything to know about "The Spirit Molecule" -DMT or N, Ndimethyltryptamine, a 'Mystical' Psychedelic Compound. Dr.Hakim Saboowala,2020-06-01 Everything to know about The Spirit Molecule DMT or N Ndimethyltryptamine a Mystical Psychedelic Compound DMT Dimethyltryptamine is probably the most powerful and crazy substance known to humanity N N Dimethyltryptamine DMT is an indole alkaloid widely found in plants and animals It is best known for producing brief and intense psychedelic effects when ingested Increasing evidence suggests that endogenous DMT plays important roles for a number of processes in the periphery and central nervous system and may act as a neurotransmitter DMT appears to have limited neurotoxicity and other adverse effects except for intense cardiovascular effects when administered intravenously in large doses Because of its role in nervous system signaling DMT may be a useful experimental tool in exploring how brain works and may also be a useful clinical tool for treatment of anxiety and psychosis An effort has been made in this Booklet to review History Chemistry Pharmacokinetics Pharmacodynamics Legal status Effects on CVS Clinical uses adverse effects etc Also an attempt has been made to include plenty of relevant Botanical Historical images to corroborate the text Dr H K Saboowala M B Bom M R S H London

Swimming in the Sacred Rachel Harris, PhD,2023-05-09 WISDOM FROM THE WOMEN HEALERS OF THE PSYCHEDELIC UNDERGROUND The use of entheogens or psychedelics is out of the closet today LSD psilocybin MDMA and other medicines once associated only with the counterculture are now being legally studied for their healing properties But as Rachel Harris shows the underground use and study of psychedelics by women dates back to the Eleusinian Mysteries of ancient Greece Harris interviews the modern women elders carrying on this tradition to gather their hard won wisdom of experience Any reader interested in inspiration healing and enlightenment will find here a wonder filled narrative packed with provocative and perhaps life changing insight

My Altered States Rick Strassman,2024-12-10 Recounts several dozen of the author's experiences of drug and non drug altered states of consciousness from birth to early adulthood Applies the lenses of four explanatory models psychoanalysis psychopharmacology Zen Buddhism and medieval Jewish metaphysics in understanding how and why they occurred Demonstrates the importance of careful unflinching recollection and documentation of both heavenly and hellish altered states in one's psychological emotional and spiritual life Why do we seek out altered states of consciousness or why in some cases do they happen unbidden What do we see and hear and what happens emotionally physically and psychologically How and why are these experiences different from or similar to one another Are they meaningful And what do we do with them after they have passed Addressing these questions renowned psychedelic researcher Rick Strassman M D draws upon his journals and analyses of dozens of episodes of altered consciousness that occurred during or are intimately

tied to his life between birth and young adulthood Just as significant as the ecstatic blissful experiences are the uncensored and at times painfully unvarnished narratives of less elevated ones Visually augmenting all these accounts are the striking images of artist Merrilee Challiss Understanding and applying the meaning and message of any altered state its integration first requires a clear eyed recollection of the actual experience in all its aspects neither pushing away the ugly nor grasping after the beautiful This book provides a profound example of how one might go about accomplishing this daunting task

Quantum Science of Psychedelics Carl Johan Calleman, 2020-03-10 A groundbreaking exploration of how psychedelics and quantum science are vital to understanding the evolution of consciousness and reality Explains why altered states of consciousness exist how they work and why psychedelics have the effects that they do Describes how quantum waves rather than the DNA molecule have been the driving force behind biological and historical evolution Explains how psychedelics interact with the human mind to create altered states that may further the continued evolution of consciousness In this groundbreaking book Carl Johan Calleman reveals the quantum science of the Maya a science lost to the modern world that explains the phenomenology of psychedelics and altered states of consciousness The ancient Maya had a sophisticated understanding of the multidimensional nature of reality and the forces that drive the evolution of consciousness Calleman explains how quantum waves illustrated by the Mayan Calendar emanate from the center of the universe and activate new phases in the evolution of consciousness through holographic resonance which alters the dualities of the human mind For example the 5th Wave which dominated in Paleolithic times and evolved human consciousness above that of animals brought a chaotic floating state reminiscent of the psychedelic or shamanic state and the recent 8th Wave brought the digital revolution The 9th Wave which began in 2011 offers the potential for individual development of higher consciousness and healing if we can synchronize ourselves with its positive holograms This multidimensional perspective explains why altered states of consciousness exist and how they work Calleman describes the role of the pineal gland for the human mind how it controls our state of consciousness and how it can connect us to the cosmic Tree of Life He shows that the mind is a reducing valve that normally limits our experience of cosmic consciousness

but that this can be reversed through altered states As Callemann concludes psychedelics like ayahuasca and DMT not only give rise to extraordinary mystical and cosmic experiences and enable access to healing states but they also are important for harmoniously synchronizing humanity with the 9th Wave to further the evolution of consciousness *Sacred Knowledge*

William A. Richards, 2015-12-08 *Sacred Knowledge* is the first well documented sophisticated account of the effect of psychedelics on biological processes human consciousness and revelatory religious experiences Based on nearly three decades of legal research with volunteers William A Richards argues that if used responsibly and legally psychedelics have the potential to assuage suffering and constructively affect the quality of human life Richards s analysis contributes to social and political debates over the responsible integration of psychedelic substances into modern society His book serves as an invaluable resource for readers who whether spontaneously or with the facilitation of psychedelics have encountered meaningful inspiring or even disturbing states of consciousness and seek clarity about their experiences Testing the limits of language and conceptual frameworks Richards makes the most of experiential phenomena that stretch our understanding of reality advancing new frontiers in the study of belief spiritual awakening psychiatric treatment and social well being His findings enrich humanities and scientific scholarship expanding work in philosophy anthropology theology and religious studies and bringing depth to research in mental health psychotherapy and psychopharmacology *Conocimiento sagrado*

Mediating the Divine Alex P. Jassen, 2007. This book is a comprehensive treatment of prophecy and revelation in the Dead Sea Scrolls. It examines the reconfiguration of biblical prophecy and revelation, the portrait of prophecy at the end of days, and the evidence for ongoing prophetic activity.

The 42 Journeys of Our Spiritual Growth and Prophecy Yoseph Viel, 2005-09-05. This book explores the 42 Journeys that Israel went through in the wilderness and how those journeys symbolize the spiritual growth for modern believers today. This 42 Journey pattern also holds the keys to understanding prophecy, since one of the 42-month tribulation periods in Revelation uses the same symbolism as this 42 Journey pattern. To understand Revelation, one must first understand the pattern it was based on. You will also see how the death and resurrection of the Messiah is foretold in this wilderness journey through symbols that will open your mind to understand the scriptures as Luke talked about in Luke 24:45. <http://www.messiahalive.com/42Journeys.wmv> is a full video about this book.

Return to Me, My Love John P. Schwulst, 2010-05. Return to Me, My Love is an in-depth look at the end-times prophecies concerning the Jews and Israel as seen through the eyes of St. John the Revelator. Most books on the Revelation attempt to interpret what John was trying to say but contend that he couldn't find the correct words to describe the visions he was given. Such interpretations are not very helpful in understanding the Revelation or the entire panoply of end-times prophecy for that matter. The Revelation defines and explains each of the terms it uses if the reader will carefully consider John's words in light of all the prophecies of the Old and New Testaments taken together as a whole. This book does exactly that. It is a literal approach to the study of Prophecy. Over 500 pages of additional research materials are available online to prove what is contained in the book. In Return to Me, My Love, the author assumes the role of St. John as he explains each verse of the Revelation to his reading audience and shows them how it foretells the entire counsel of God concerning the Last Days. In this book, the reader will be shown how God took the people of Israel as his wife but after bearing with their centuries of apostasy against him, he finally wrote them a Bill of Divorce and sent them away. Yet the Lord was not done with Israel and just as he wrote in Hosea, he was determined to allure her and eventually bring her back to him. We are seeing that story being played out as we watch the modern State of Israel struggle without her Messiah, Jesus. The Tribulation that is coming in the last days, Israel will be God's way of testing his Jewish people, purging the nation of its apostasy and taking back the remnant of his Chosen People to be his wife, hence the title of the book. This is a must-read and is unlike anything currently available on prophecy. Every Christian needs to understand prophecy in order to be ready to assist the Jews when their time of trial begins.
