21st Century Airlines Nawal K. Taneja, 2017-09-08 In 21st Century Airlines Connecting the Dots Nawal Taneja addresses the challenges and opportunities facing the airline industry as it tries to innovate and create products and services that are radically different by connecting the dots at four key levels recognizing the implications of global events improving cross functional collaboration within the organization working more closely with the travel chain and providing much higher engagements with connectors within the social networks The book synthesizes insights gained from the experience of non traditional businesses such as Uber that have no physical assets and that focus on scalability through platforms as well as traditional businesses such as Mercedes Benz that are transitioning from operators of physical assets to adapt to the on demand and sharing economies These insights show pragmatically that digitizing airline businesses would require digital mind sets digital technologies digital strategies and digital workplaces to explore new frontiers in value for both customers and airlines Moreover forward thinking airlines need to consider working with bimodal organizational structures in which one group optimizes current business models network fleet and schedule planning as well

as revenue management while a second group explores innovative ways to add digital features to physical products to provide a consistent experience throughout the journey The book is written for all senior level practitioners of airlines and related businesses worldwide as well as senior level government policymakers **Customer-Committed** Mathias Weber,2025-05-29 This book demonstrates why companies must establish and maintain a new customer committed culture and how this transformation can be achieved A unique customer experience has never been as critical to success as it is today Many companies are therefore focusing on customer oriented processes and the collection of valuable customer data However customers are more than just the sum of their data Special brand experiences and genuine wow moments almost always arise from empathy a personal touch or the famous extra mile that employees go for their customers Mathias Weber vividly illustrates how genuine customer commitment can be achieved in companies and provides the essential tools and measures along with insights into concrete case studies **Kaleidoscope** Chip R. campaigns in the German automobile industry almost ended in a disaster for the company. The result was the biggest crisis a German automobile company had ever faced. Mercedes-Benz is a high class automobile company. Its products stand for luxury, reliability, and dependability. But high class cars are expensive and only affordable for the richer part of society. To keep pace with the fast developing automobile industry all over the world, Mercedes-Benz decided to invent a car that reunites all three values the company embraces. This car, the Mercedes-Benz A-Class, should have another important feature: It is affordable for the middle class. With this car, Mercedes was approaching a new market segment and therefore new target audiences. A campaign that fits the new car in the overall Mercedes image was crucial. In May 1996, Mercedes-Benz started its huge advertising campaign almost one and a half years prior to the official product launch on October 18th 1997. More than 100 million Euro will this launching campaign cost the company. Despite that the campaign only ran in the European market, the Mercedes-Benz brand and this specific campaign caught international attention. Newspapers from all over the world accompanied the A-Class until its official launch. These newspapers were also there when the crisis occurred that almost harmed the company on a long term basis. Right after the launch, the car that was supposed to be innovative, reliable, and safe failed in the so-called moose test. After almost two years of positive media coverage, a flood of criticism followed. Due to the high level of awareness for the car, the public was n
