

THE DULCE PAPERS

The Dulce papers were comprised of 25 black and white photos, a video tape with no dialogue and a set of papers that included technical information of the alleged jointly occupied (U.S.-Alien) facility 1 kilometer beneath the Archuleta Mesa near Dulce, New Mexico. Several persons were given the above package to hold for safekeeping. Most of those given the package were shown what the package contained but were not technically oriented and knew very little about what they were looking at. The following was written by one of these persons about what the papers contained. This person described the scenes that the video tape showed and made rough pencil drawings of some of the photos. What you see is what you get; I can't decipher what is written or drawn anymore than you can. I pass these papers on only in the interest of getting to the truth. From other information I have I believe the information contained herein is true. I believe the facility exists and is currently operational. I also believe that there are 4 additional facilities of the same type, one located a few miles to the southeast of Groom Lake, Nevada. What is the truth? Only God, MJ-12 and the aliens know for sure.

Dulce papers: Lots of papers-documents that discuss copper and molybdenum, also papers about magnesium and potassium, but mostly about copper. Lots of 'medical terms' that I don't understand. A sheet of paper with charts and strange diagrams. Papers that discuss ultra violet light and gamma rays. Papers that discuss color and black and white and how to avoid detection through use of certain colors. In addition to these papers there are about 25 pictures, black and white, plus one video tape with no dialogue, all taken inside of the Dulce facility. These papers tell what the aliens are after and how the blood (taken from the cows) is used. Aliens seem to absorb atoms to 'eat'. Aliens put hands in blood, sort of like ~~like a sponge~~, for nourishment. Its not just food they want, the DNA in cattle and humans is being altered. The 'Type One' creature is a lab animal. "They" know how to change the atoms to create a temporary "almost human being". It is made with animal tissue and depends on a computer to simulate memory, a memory the computer has withdrawn from another human being. The 'almost human being' is slightly slow and clumsy. Real humans are used for training, to experiment and to breed with these "almost humans". Some humans are kidnapped and used completely (even atoms). Some are kept in large tubes, and are kept alive in an amber liquid. Some humans are brainwashed and used to distort the truth. Certain male humans have a high sperm count and are kept alive. Their sperm is used to alter the DNA and create a non-gender being called "Type Two". That sperm is grown some way and altered again, put in large wombs, many destroyed, certain are altered again and then put in separate wombs. They resemble 'ugly humans' when growing but look normal when fully grown which takes only a few months from fetus size. They have a short life span, less than a year. Some female humans are used for breeding. Countless women have had a sudden miscarriage after about 3 months pregnancy. Some never knew they were pregnant. Others remember contact some way. The fetus is used to mix the DNA in types one and two. The atomic makeup in that fetus is half human, half "almost human" and would not survive in the mothers womb. It is taken at 3 months and grown elsewhere.
