Hindu-Muslim Relations in British India Gene R. Thursby,1975 **Democracy, Ethnic Diversity, and Security in Post-Communist Europe** Anita I. Singh,2001-06-30 Inder Singh examines why international organizations including the UN OSCE and Council of Europe advocated democratic governance based on the rule of law and respect for human and minority rights as the method by which states should try to accommodate their ethnically mixed populations She discusses how realistic this advice has been given the tension between the principle of the sovereignty of states and their international obligations and the extent to which democratization had made for ethnic and political stability in post communist Europe Inder Singh demonstrates that this advocacy of democracy to handle ethnic diversity questions the perception of nationalism as a cause of war and disorder This pathbreaking study will be of appeal to academics and policy makers interested in how the management of ethnic diversity through democracy can enhance domestic and international security Violence, Politics and Conflict Management in Africa Mawere, Munyaradzi,Marongwe, Ngonidzashe,2016-09-01 This volume critically interrogates from different angles and dimensions the resilience of conflict and violence into 21st century Africa The demise of European colonial administration in Africa in the 1960s wielded fervent hope for enduring peace for the people of Africa Regrettably conflict alongside violence in all its dimensions physical religious political psychological and structural remain unabated and occupy central stage in contemporary Africa The resilience of conflict and violence on the continental scene invokes unsettling memories of the past while negatively influencing the present and future of crafting inclusive citizenship and statehood he book provides fresh insightful ethnographic and intellectual material for rethinking violence and conflict

Africas Dependency Syndrome N. Mhango, 2017-08-06 There are milliards of off beam assumptions that Africa will always remain immobile in development of whatever type This pseudo take has mainly been propounded by Western thinkers in order to dubiously make Africans internalise and reinforce this flimsy and flimflam dependency Africa needs to embark on paradigm shift and tweak and turn things around Africa has what it take to do so quickly especially now that new economic powers such as China and India are evolving as counterweight to the West Shall Africa use these new economic forces to its advantage based on fair and win win cooperation To do so Africa must make sure that it does not slink back into business as usual vis a vis beggarliness dependence frailty gullibility made up backwardness monkey business and pipedreams not to mention the nasty and narcissistic behaviours of its venal and navel gazing rulers Verily Africa needs inter alia to use its God given gifts namely immense resources young population abundance of vast and unexploited amounts of land Equally Africa must without equivocation invest copiously and earnestly in its people the youth in the main Most of all Africa needs to shy away from all colonial carryovers and encumbrances This volume shows many ways through and by which Africa can inverse the current imbroglio cum no go it faces for the better and thereby actualise the dream of being truly independent and prosperous

How Berlin Conference Clung on Africa Nkwazi N. Mhango, 2024-10-02 The book *How Berlin Conference Clung on Africa What Africans Must Do* aims to expose the root causes of Africa's struggles including colonialism greed and artificial national divisions It examines the lasting impact of the Berlin Conference of 1884-85 where European powers divided Africa leading to dependence and underdevelopment The book also criticises the role of African leaders in perpetuating these divisions and hindering progress It argues that the artificial borders created at the Berlin Conference have been detrimental to Africa and calls for unity and a rejection of the colonial legacy to achieve true independence and prosperity

Jokey Horse-Jockey North-South Rapport Nkwazi Mhango, 2018-06-07 No doubt North-South relationship involving poor and rich countries is very convoluted based and built on exploitative unequal and unfair equilibria It is purely jockey-horse-like connubium that serves one party as it disserves the other This is why deconstructing and detoxifying this relationship is *sine qua non* The author argues that the parties in this relationship must revisit it to make sure it equally benefits both for the benefit of the whole world Importantly the major question posed is Why did the two global halves maintain and tolerate such toxic rapport while knowingly it is but colonial and unjust The question is answered in this academic treatise which asks the parties to hark back and thereby do justice to each other by viewing themselves as humans with shared needs and future whose lesson from the past may buttress them to be major thespians in realising world peace This is because their parasitic relationship has fueled many conflicts revolving around the struggle for controlling resources in the South in order to sell to the North

Africa Reunite or Perish Nkuzi Mhango, 2015-12-01 *Africa Reunite or Perish* is a daring and timely book that explores the essence and nefariousness of neocolonialism in a purportedly independent Africa The book shows how Africa spends billions of dollars in pseudo threats among African countries due to colonially entrenched fear and war mongering The book is emphatic on deconstruction and decolonisation as a categorical imperative for the reunification of Africa beyond the narrow confines of current nation states Mhango takes a diagnostic cum prognostic approach in discussing Africa's predicaments and in identifying and proposing solutions to problems confronting Africans The book ascertains Africa's untapped potentials by proving how Africa can live without the infamy of excruciating dependency and beggarliness It makes a compelling case for African unity beyond the tokenism of officialdom It prescribes a truly pan-African driven reunification of Africa as the only means of reclaiming the glory she used to enjoy before she was savagely partitioned

Reworking Race Moon-Kie Jung, 2006-05-02 In the middle decades of the twentieth century Hawaii changed rapidly from a conservative oligarchy firmly controlled by a Euro-American elite to arguably the most progressive part of the United States Spearheading the shift tens of thousands of sugar pineapple and longshore workers eagerly joined the left-led International Longshoremen's and Warehousemen's Union ILWU and challenged their powerful employers In this theoretically innovative study Moon-Kie Jung explains how Filipinos Japanese Portuguese and others overcame entrenched

racial divisions and successfully mobilized a mass working class movement He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics Instead he shows how the movement reworked race by developing an ideology of class that incorporated and rearticulated racial meanings and practices Examining a wide range of sources Jung delves into the chronically misunderstood prewar racisms and their imperial context the Big Five corporations concerted attempts to thwart unionization the emergence of the ILWU the role of the state and the impact of World War II Through its historical analysis *Reworking Race* calls for a radical rethinking of interracial politics in theory and practice

Propaganda and the Cyprus Revolt Maria Hadjiathanasiou, 2020-05-14 During the EOKA period of Greek Cypriot revolt against British colonial rule the Greek Cypriots and the British deployed propaganda as a means of swaying allegiances both within Cyprus and on the international scene *Propaganda and the Cyprus Revolt* places new emphasis on the vital role propaganda played in turning the tide against British colonial control over Cyprus Examining the increase of violence and coercion during this period of revolt this book examines how the opposing sides mobilization of propaganda offered two alternative visions for the future of Cyprus that divided opinion to the ultimate detriment of British counterinsurgency efforts Detailing the deployment of propaganda by both parties across radio television and print channels the book draws upon previously unpublished archival material in order to paint a detailed picture of how the British Empire lost control over the hearts and minds of the Greek Cypriot people This study shines new light on a crucial period of Cypriot history and contributes to wider transnational debates around the use of propaganda and the end of empire This will be an essential read for students of Cyprus history and British colonial history Garrulous Ego Gang Metuge Ekane, 2019-11-26 THE LACK of

Women and Scottish Society, 1700-2000 W.W.J. Knox,2021-05-03 This book attempts to cover all the important aspects of a woman s life in Scotland examining how and why it changed over the last 300 years It walks us through the day to day existence of Scottish women and in doing so covers areas such as family and household education work and politics religion and sexuality crime and punishment While sensitive to the differences among women regarding colour class and sexuality the book seeks to establish a close and reciprocal relationship between women s history and gender history the first delineating the struggles of women for parity with men in economic legal and political spheres the second as means of unravelling the continuing ways in which power is unequally distributed within the home the workplace and in institutions and in contesting the male centred narratives of the past

Oil States in the New Middle East Kjetil Selvik,Bjørn Olav Utvik,2015-07-16 Oil has been central to regime survival for oil states across the Arabian Peninsula and has been at the heart of their attempts to defuse the wave of Arab revolutions However in 2011 revolution hit Libya the most oil dependent regime in the Middle East The political storm winds that have swept this region have thrown into doubt the resilience of Arab rentier states and highlight how the political effects of oil vary across the oil producing countries Oil States in the New Middle East brings together leading experts to critically assess the centrality of oil and the relevance of Rentier State Theory in light of the post 2011 upheaval across the Middle East and North Africa It combines overall reflections on the political dynamics in oil states with focused case investigations of individual countries Taking as its starting point the centrality of oil in explanations of regime survival the book analyses how the oil states have responded to and fared throughout the Arab popular upheavals resulting in a critical assessment of the continued relevance of Rentier State Theory While observers have asked how the uprisings varied between oil and non oil states this book turns the comparative focus inward arguing for a more fine grained understanding of the political effects of oil in different oil producing countries This book would be of interest to students and scholars of Middle East North Africa
