The Learner Driver's Logbook Don Gates,2020-06-09 Learning to drive is like picking up any new skill it needs a planned and structured approach if it is to be successful There is a lot to take in a lot of rules to remember and for most this can only be done one step at a time As your ability and experience develops there comes a time when you must gain independence You need to become a driver who is capable of making your own decisions and carrying them out safely There is not much point in being constantly coached all the way through every lesson and then being abandoned to your own resources when you take a driving test You must become largely independent before this time to know that you are ready for the test This is how it works The first stage of training is to be introduced to a new topic and to carry this out with help from your instructor Stage two is for you to carry out this new skill after being prompted by your instructor At stage three you should be acting by yourself in this area and only need occasional reminders Stage four is reached when you can carry out the skill without the need of guidance or prompting It is only when you have reached stage four in all aspects of the driving test syllabus that you can claim you are ready for test And you need to be able to demonstrate that you can do this consistently Using the Learner Driver s Logbook you can use the charts to mark off and monitor your progress Included with each competence area are helpful tips and reminders and Highway Code references This will give you a handy guide to help you decide whether or not you have reached your goal in each area There are also pages where you can write down your lesson appointment times as well as the date and time of your driving test The Learner Driver s Logbook will help you take a structured approach to your driving lessons and enable you to track your progress as you prepare to take your driving test This is one of the Driving Test
