Pfenninger and Fowler's Procedures for Primary Care E-Book Grant C. Fowler, 2019-03-24 Primary care clinicians are performing more varied procedures than ever before and physicians residents and students need a comprehensive authoritative resource that provides trusted information in an easy to follow format Through three outstanding editions Pfenninger and Fowler's Procedures for Primary Care has been the go to reference for step by step strategies for nearly every medical procedure that can be performed in an office hospital or emergency care facility by primary care providers This 4th Edition continues that tradition with new section editors updated illustrations new chapters and much more No other primary care procedure book compares with Pfenninger and Fowler's breadth and depth of practical step by step content Provides comprehensive real world coverage of more than 230 procedures that arise in the primary care setting including many that were previously performed only in subspecialty settings such as joint injections and cosmetic procedures Includes new chapters Esophageal Foreign Body Removal Manual Testicular Detorsion Symphysiotomy Zipper Injury Management and Blood Products Presents the how to expertise of six new section editors for a fresh contemporary perspective throughout the book Additional focus on the evidence with plentiful citations to key references makes this the most evidence based edition yet Features numerous updated illustrations including many more in full color and incorporates updated ICD 10 CM codes throughout Provides access to online resources including patient education handouts and consent

forms lists of device manufacturers and more Utilizes a concise outline format detailed text and illustrations and abundant boxes and tables for quick access to the information you need Enhanced eBook version included with purchase which allows you to access all of the text figures and references from the book on a variety of devices *Handbook of Intensive Care* R. S. Atkinson, J. J. Hamblin, J. E. C. Wright, 2013-11-11 The experience of active management of patients in the intensive care unit of a busy district general hospital has convinced us of the value of team work which allied to enthusiasm and clinical expertise provides the recipe for success It is in this spirit that the present volume has been written and the authors are grateful to their colleagues who have given advice In some cases this has been extended to the compilation of a special chapter and we are indebted to Dr Dathan Dr Layton and Dr Rushman for their contributions In this book we have attempted to set down the principles of intensive care as they concern the typical district general hospital without specialist units or the back up of research departments In doing this we have tried to maintain simplicity and to give practical advice The book is not aimed at the specialist in intensive care who can draw on his own extensive experience but rather at the junior doctor who takes his turn working in the intensive care unit In particular we have considered the needs of those who require some information outside the parent speciality We are also aware that in many British hospitals consultants assume a duty responsibility for patients in intensive care units and we hope that the information in this volume may be of some help to them Trained nurses should also find this book of value Introduction to Critical Care Nursing - E-Book Mary Lou Sole, Deborah Goldenberg Klein, Marthe J. Moseley, 2012-10-29 User friendly and easy to understand Introduction to Critical Care Nursing 6th Edition offers clear concise coverage of essential critical care concepts technology and procedures Completely updated evidence based content addresses the latest advances in high acuity care and emphasizes patient safety and optimum patient outcomes Plus an abundance of active learning resources and realistic case studies enables you to apply your knowledge and strengthen your critical thinking and clinical decision making skills Case studies challenge you to apply concepts from the book to real life patient specific cases with lab results and accompanying questions to test your critical thinking skills Critical thinking questions in every chapter encourage you to apply the concepts presented throughout the chapter Evidence Based Practice boxes illustrate how research and evidence are used to address problems in patient care and their implications for nursing practice Boxes include the AACN's new system for Level of Evidence A B C D E and M Nursing care plans provide nursing diagnoses expected patient outcomes and interventions with rationales to prepare you for clinical practice Clinical Alerts promote patient safety and better clinical care by highlighting potential problems and concerns for a variety of settings Laboratory Alerts discuss both common and cutting edge tests and procedures emphasizing the importance of laboratory test results to critical nursing care Pharmacology tables detail the actions usage indications dosages routes side effects and nursing implications of commonly used critical care drugs A new chapter on Solid Organ Transplantation provides information on caring for both donors and recipients receiving these increasingly common

procedures emphasizing the commonalities and unique attributes for the various transplantations Enhanced ECG measurement coverage helps you master this complex area with standardized ECG strips that are 6 seconds long and computer rendered for clarity An emphasis on QSEN competencies enables you to gain the knowledge skills and attitudes needed for providing high quality safe health care NEW Bariatric Considerations boxes highlight the effects of obesity on critical illness as well as important safety alerts and interventions for the morbidly obese NEW Colorful design includes full color illustrations that visually clarify key concepts and revised algorithms that use color to enhance your understanding of the latest American Heart Association guidelines **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1985
