Countering Mission Drift in a Faith-based Organization Peirong Lin, 2019-09-27 This book presents the case study of World Vision as a useful contribution in the discussion of mission drift a common phenomenon facing faith based organizations Mission drift has been categorised as a drifting away from the organization's founding mission purpose and identity Practical theological interpretation is

undertaken in this case study There are four phases involved in this approach design collection analysis and recommendation In the first phase design the key terms of the dissertation are explicated One key model used is the identity formation model of organizations In the second phase collection the actual collection of the empirical research is documented Empirical research was done in two separate locations where World Vision worked in Papua New Guinea and Nepal In the third phase analyzing the findings of the empirical research are analysed firstly using the identity formation model and more normatively through the use of the normative practice model In the final phase recommendations are made in light of the analysis These recommendations are also framed using the identity formation model with content and process recommendations given

Using Research Instruments Peter Birmingham, David Wilkinson, 2003-12-08 Clear accessible and practical this guide introduces the first time researcher to the various instruments used in social research It assesses a broad range of research instruments from the well established to the innovative enabling readers to decide which are particularly well suited to their research The book covers questionnaires interviews content analysis focus groups observation researching the things people say and do This book is particularly suitable for work based and undergraduate researchers in education social policy and social work nursing and business administration It draws numerous examples from actual research projects which readers can adapt for their own purposes Written in a fresh and jargon free style the book assumes no prior knowledge and is firmly rooted in the authors own extensive research experience Using Research Instruments is the ideal companion volume to The Researcher s Toolkit Together they offer a superb practical introduction to conducting a social research project

Qualitative Interviews. Conducting interviews as a means of qualitative study. Main types of interviews Leo Decher, 2017-11-22 Seminar paper from the year 2016 in the subject Communications Research Studies Enquiries grade 1 7 Friedrich Alexander University Erlangen Nuremberg language English abstract With regard to educational income and school development technological progress offers increasing possibilities in the fields of knowledge transfer and classroom management This is especially reflected in so called iPad classes that were initiated at the Realschule Those classes are part of a pilot experiment in the Bavarian mainstream system According to the school s website the desired advantages are amongst others fast availability in group work periods reinforcing medial competence individual learning and quick access to educational contents from the internet I came to visit such classes during my first student internship in 2013 Now that a couple of years have passed I aim to find out in how far teachers and pupils think that it had been a good choice for them to take part in this project Therefore I am going to conduct interviews with both a participating teacher and two students The interviews will cover advantages and disadvantages that come to the interviewees minds concerning the daily use of tablet computers at school as well as ideas the respondents have to keep improving the educational contact with innovative learning tools such as iPads This research will be prepared conducted and evaluated on a qualitative level **Clay's**

Handbook of Environmental Health Stephen Battersby, 2016-07-01 Clay s Handbook of Environmental Health since its

first publication in 1933 has provided a definitive guide for the environmental health practitioner or reference for the consultant or student This 21th edition continues as a first point of reference reviewing the core principles techniques and competencies and then outlining the specialist subjects It has been refocused on the current curriculum of the UK s Chartered Institute of Environmental Health but should also readily suit the generalist or specialist working outside the UK

Methodological Thinking in Psychology Jaan Valsiner, Aaro Toomela, 2010-07-01 In recent years an increasing dissatisfaction with methods and thinking in psychology as a science can be observed The discipline is operating under the tension between the traditional quantitative and the new qualitative methodologies New approaches emerge in different fields of psychology and education each of them trying to go beyond limitations of the mainstream These new approaches however tend to be historically blind seemingly novel ideas have actually been common in some period in the history of psychology Knowledge of historical trends in that context becomes crucial because analysis of historical changes in psychology is informative regarding the potential of new old and forgotten approaches in the study of psyche Some approaches in psychology disappeared due to inherent limitations of them the others disappeared due to purely non scientific reasons And some new approaches were rejected long ago for well justified scientific reasons This book brings together contributions from leading scholars in different fields of psychology cognitive psychology developmental psychology cultural psychology methodology of psychology Each of the contributors discusses methodological issues that were more thoroughly understood more than half a century ago than they are now Overall the contributions support the idea that in important ways 60 years old psychology was far ahead of the most recent trends in mainstream psychology *Interaction Design* Helen Sharp, Jennifer Preece, Yvonne Rogers, 2019-04-04 A new edition of the 1 text in the human computer Interaction field Hugely popular with students and professionals alike the Fifth Edition of Interaction Design is an ideal resource for learning the interdisciplinary skills needed for interaction design human computer interaction information design web design and ubiquitous computing New to the fifth edition a chapter on data at scale which covers developments in the emerging fields of human data interaction and data analytics The chapter demonstrates the many ways organizations manipulate analyze and act upon the masses of data being collected with regards to human digital and physical behaviors the environment and society at large Revised and updated throughout this edition offers a cross disciplinary practical and process oriented state of the art introduction to the field showing not just what principles ought to apply to interaction design but crucially how they can be applied Explains how to use design and evaluation techniques for developing successful interactive technologies Demonstrates through many examples the cognitive social and affective issues that underpin the design of these technologies Provides thought provoking design dilemmas and interviews with expert designers and researchers Uses a strong pedagogical format to foster understanding and enjoyment An accompanying website contains extensive additional teaching and learning material including slides for each chapter comments on chapter activities and a number of in depth case studies

written by researchers and designers Essentials of Social Science Research Methodology Erik Stavnsager Rasmussen, Per Østergaard, Suzanne C. Beckmann, 2006 Research is the systematic process of planning investigating and understanding a phenomenon in order to find answers to specific questions This book describes and explains the essential foundations of the research process in the social sciences It is guided by the notion that there is no such thing as one general best method but that the choice of method depends upon the research problem and the purpose of the research Key features of the book include setting the stage from a philosophy of science perspective that emphasizes the need to choose the appropriate frame of reference for a given research problem describing the mindset that is necessary to work in a scientific way and the rules that apply regardless of whether the researcher is a first year student or writing a Ph D explaining the importance of theories models and methods for a systematic approach to literature reviews use of secondary data and empirical investigations introducing the fundamental characteristics of qualitative and quantitative methods and their implications for data collection and analysis clarifying the issues of verification and reflection in the evaluation of research studies Museum Practice, 2002 **The Psychologist**, 2002 **A Teacher's Guide to Classroom Research** David Hopkins, 2008-09 This practical guide is for teachers who wish to undertake research in their classrooms with a view to improving their practice It will enable teachers to enhance their own or their colleagues teaching and to test educational theory Bibliographic Guide to Education, 2002 lists publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York Public Library **Postmodernism and Social Research** Mats Alvesson, 2002 This book provides an overview of postmodern themes evaluates the possibilities and dangers of postmodernist thinking and develops ideas on how a selective sceptical incorporation of postmodernism can make social research more conscious about problems and pitfalls and more creative in working with empirical material so called data A reflexive orientation runs throughout the book which addresses themes such as how to understand the individual in research how to deal with the knowledge power connection how to relate to language and how to unpack rather than take for granted socially dominant categories in research work One chapter addresses the research interview in the light of postmodernist concerns about the naivety of assuming that the interviewee is simply an informant a truth teller authentically expressing his or her experiences and meaning Other chapters address issues of voice interpretation writing and reflexivity The book includes a range of empirical illustrations of how postmodernist ideas can inspire social research and in all it represents a valuable text for students and researchers alike **Environmental Health**, 1993 *Forthcoming Books* Rose Arny, 2003 *Qualitative Research Design for Software Users* Silvana di Gregorio, Judith Davidson, 2008-12 Di Gregorio the second part uses case studies to demonstrate the issues and the design framework introduced in the first part These chapters are supported by numerous screenshots illustrating the software under discussion The last part contains practical appendices to help readers apply the framework introduced to their own research Di Gregorio and Davidson introduce The notion of the E Project or electronic

project as a genre A framework for representing the research design of a project in any QDAS package Ethical considerations when working in QDAS A variety of contextual issues including national and organizational differences Eight real research projects of a variety of designs and using different QDAS ATLAS ti MAXqda NVIVO and XSight Separate checklists for ATLAS ti MAXqda NVIVO and XSight providing practical help in applying the research design framework presented in the book Uniquely the book examines issues related to both academic and non academic uses of QDAS Qualitative Research Design for Software Users is a useful reference for upper level students academics and researchers across a range of disciplines
