Addison-Wesley Longman, Limited, Professor Douglas Biber, 2004-10 Longman Dictionary of Contemporary English Adam Gadsby, 2001 A full picture of English as used in 2001 this comprehensive guide to written and spoken English has been updated with a new words section and colour headwords The Three Waves of Globalization Franca Poppi, 2014-01-16

Globalization i.e. the spatio-temporal processes of change leading to a transformation in the organization of human affairs is said to have started as long ago as the end of the 15th century This first wave of globalization was subsequently followed by two others The third wave of globalization which began after 2000 has made the world noticeably smaller In fact technological innovations have sharply increased the availability of new modes and channels of communication As a result the sharing of knowledge and information all around the world has substantially increased and this has prompted the emergence of new globalizing genres In addition it has led to the implementation of a series of adaptations to the existing genres in an attempt to guarantee their success and survival in an era which celebrates the need for a global reach In order to investigate these winds of change in generic studies the present volume combines a historical perspective with a detailed survey of different contemporary discourses and genres situated in an array of contexts of interaction Accordingly the empirically informed analyses of discourses and genres do not only focus on the textual intertextual and interdiscursive features but also on the institutional organizational professional and socio-cultural settings i.e. all those aspects which show how genres reflect changing disciplinary and professional cultures As a consequence and in line with the multi-faceted nature of genre different reading paths can be followed in the present volume On the one hand it is possible to make a distinction between professional institutional and academic contexts On the other hand the concept of change will also be investigated by focusing on oral written and web-mediated genres Throughout the volume the different reading paths aim at highlighting the influence of the three waves of globalization on genre evolution thus contributing to providing evidence in favour of the homogenization or fragmentation hypotheses which claim new global genres are outnumbering or are outnumbered by the proliferation of a myriad of new customized genres Longman Dictionary of Contemporary English ,1979 **Longman dictionary of contemporary English** ,1998*
