Love Medicine Arts:

Love Medicine Louise Erdrich, 1993 The first book in Erdrich's Native American tetralogy that includes *The Beet Queen*, *Tracks* and *The Bingo Palace* is an authentic and emotionally powerful glimpse into the Native American experience now resequenced and expanded to include never before published chapters

Medicine, Education, and the Arts in Contemporary Native America Amanda K. Wixon, Clifford E. Trafzer, Donna L. Akers, 2022-02-25 This book offers twenty original scholarly chapters featuring historical and biographical analyses of Native American women. The lives of women found her contributed significantly to their people and people everywhere. The book presents Native women of action and accomplishments in many areas of life. This work highlights women during the modern era of American history countering past stereotypes of Native women. With the exceptions of Pocahontas and Sacajawea, historians have had little to say about American Indian women who have played key roles in the history of their tribes, their relationship with others, and the history of the United States. Indigenous women featured herein distinguished themselves as fiction and non-fiction writers, poets, potters, basket makers, musicians, and dancers. Other women contributed as notable educators and women working in health and medicine. They are representative of many women within the Native Universe who excelled in their lives to enrich the American experience.

Retrospection and Revision in Modern and Contemporary Art, Literature and Music Mette Gieskes, Mathilde Roza, 2024-01-03 This interdisciplinary book investigates the various ways in which North American and European modern and contemporary artists, authors, and musicians have returned to earlier works of their own, engaging in inventive revivals and transformations of the past in the present. The book is distinctive in its focus on such revisits as well as in the diversity of art forms under review. In addition to visual art, the book explores fiction, poetry, literary criticism, film, rock music, and philosophy. This scope, together with the time span covered in the book from the 1850s to the twenty-first century, allows for a broad view on retrospection and revision. The case studies presented here offer a multifaceted exploration of the widely different goals to which practitioners of the arts have made retrospection and revision functional against the background of cultural, social, political, and personal forces.

Saving the Art of Medicine Allen Sussman, 2023-01-12 In his deeply thoughtful book, Dr. Sussman provides an expansive view of the field and all that being a healer entails. Sharing stories from his training as well as practice, drawing on data from a wealth of studies and including a nuanced discussion of clinical trials, he argues that medicine should be more than just the treatment of a diseased or broken body part. Rather, physicians must respect the complex interrelationships of mind, body, and spirit, seeking always to connect the part to the whole. *Saving the Art of Medicine* starts with the history of medicine in shamanic times and culminates in a discussion of how a doctor heals even at the time of death. It delves into a multitude of phenomena such as nonpharmacological pathways to health, the doctor-patient connection, and the power of our minds. Comprehensive and multi-faceted, the book is a profound acknowledgment of the art of medicine and unveils an extraordinary potential within the field. Underpinning all is the idea

that open mindedness humility and compassion play an integral role Only by cultivating these virtues can doctors achieve the highest levels of well being for their patients and meet their own full potential as healers Dr Sussman s journey and his inspiring vision of medicine as a combined science and art make this a must read for medical students doctors and anyone interested in improving their own medical care and the healthcare system at large *Crow Indian Rock Art* Timothy P McCleary,2016 This absorbing volume examines cultural role of rock art for the Aps alooke or Crow people of the northern Great Plains by examining collective concepts of landscape as well as shared memories of historic Crow culture **Youxin Yang, M.D. Ph.D.** Espace Richelieu,2004-03 Youxin Yang is a Prize winning young scientist Besides her career in medical research she has held solo painting exhibitions She is also a screenplay writer and a film director Native American Women Gretchen M.
