Key Features Practical hands on approach including numerous student exercises Wide range of languages and examples Accessible writing style aimed at students Comprehensive and insightful coverage of essential topics

Key Words historical linguistics syntactic change

grammaticalization language change **Cataloguing the World's Endangered Languages** Lyle Campbell, Anna Belew, 2018-02-02 Cataloguing the World's Endangered Languages brings together the results of the extensive and influential Catalogue of Endangered Languages ELCat project Based on the findings from the most extensive endangered languages research project this is the most comprehensive source of accurate information on endangered languages The book presents the academic and scientific findings that underpin the online Catalogue located at www.endangeredlanguages.com making it an essential companion to the website for academics and researchers working in this area While the online Catalogue displays much data from the ELCat project this volume develops and emphasizes aspects of the research behind the data and includes topics of great interest in the field not previously covered in a single volume Cataloguing the World's Endangered Languages is an important volume of particular interest to academics and researchers working with endangered languages

Between Separation and Symbiosis Andrey N. Sobolev, 2021-06-08 The book deals in detail with previously understudied language contact settings in the Balkans South East Europe that present a continuum between ethnic and linguistic separation and symbiosis among groups of people The studies in this volume achieve several aims they critically assess the Balkan Sprachbund theory they analyse general contact theories against the background of new original representative field and historical Greek Albanian Romance Slavic and Judesmo data they employ and contribute to recent methods of research on linguistic convergence in bilingual societies they propose new general assessments of extra and intralinguistic factors of Balkanization over the centuries and they outline prospects for future research The factors relevant to contact scenarios and linguistic change in the Balkans are identified and typologized through models such as those related to a balanced or unbalanced socio linguistic situation

American Indian Languages Lyle Campbell, 2000-09-21 Native American languages are spoken from Siberia to Greenland and from the Arctic to Tierra del Fuego they include the southernmost language of the world Yaghan and some of the northernmost Eskimoan Campbell's project is to take stock of what is currently known about the history of Native American languages and in the process examine the state of American Indian historical linguistics and the success and failure of its various methodologies There is remarkably little consensus in the field largely due to the 1987 publication of *Language in the Americas* by Joseph Greenberg He claimed to trace a historical relation between all American Indian languages of North and South America implying that most of the Western Hemisphere was settled by a single wave of immigration from Asia This has caused intense controversy and Campbell as a leading scholar in the field intends this volume to be in part a response to Greenberg Finally Campbell demonstrates that the historical study of Native American languages has always relied on up to date methodology and theoretical assumptions and did not as is often believed lag behind the European historical linguistic tradition

Linguistic Areas April McMahon, 2006-05-02 The contributors to this collection address issues of definition and theory of linguistic areas analyze the process of convergence and introduce methods to assess the impact of language contact across geographical zones New

case studies are accompanied by discussions that revisit some of the more well established linguistic areas

Mother Tongue ,1995 Southwestern Journal of Anthropology ,1972 **Advances in Proto-Basque Reconstruction with Evidence for the Proto-Indo-European-Euskarian Hypothesis** Juliette Blevins,2018-09-03 This book presents a new reconstruction of Proto Basque the mother language of modern Basque varieties historical Basque and Aquitanian grounded in traditional methods of historical linguistics Building on a long tradition of Basque scholarship the comparative method and internal reconstruction informed by the phonetic bases of sound change and phonological typology are used to explain previously underappreciated alternations and asymmetries in Basque sound patterns resulting in a radically new view of the proto language The comparative method is then used to compare this new Proto Basque with Proto Indo European revealing regular sound correspondences in basic vocabulary and grammatical formatives Evaluation of these results supports a distant genetic relationship between Proto Basque and Proto Indo European and offers new insights into specific linguistic properties of these two ancient languages This comprehensive volume which includes a detailed appendix including Proto Basque Proto Indo European cognate sets will be of general interest to linguists archeologists historians and geneticists and of particular interest to scholars in historical linguistics phonetics and phonology language change and Basque and Indo European studies Errata for the book can be found at <https://julietteblevins.ws.gc.cuny.edu/proto-basque>

The History of Tense/Aspect/Mood/Voice in the Mayan Verbal Complex John S. Robertson,2014-08-19 Mayan civilization renowned for its mathematics writing architecture religion calendrics and agriculture fascinates scholars and a wide lay public as archaeology and glyphic decipherment reveal more of its secrets In this pathfinding study of the Mayan language family John S Robertson explores major changes that have occurred in the core of Mayan grammar from the earliest reconstructed ancestral language down through the colonial languages to the modern languages that are spoken today Building on groundwork already laid in phonological studies and in the study of the pronominal system Robertson s examination of tense aspect mood voice is the next logical step in the general linguistic study of Mayan Robertson offers careful consideration of all the major subgroups of Mayan from Yucatecan to Quichean as they are spoken today He also draws extensively on colonial documents assembled by bilingual Spanish Mayan speaking clerics These documents provide a check on the accuracy of both the reconstructed ancient language Common Mayan and the theoretical evolution of the modern languages from this ancestor The study will also be of value to students of the Maya glyphs since it discusses the grammatical system that most probably underlies the glyphic representations Beyond its obvious interest for Mayan linguistics the study proposes a theory of language change that will be important for all students of comparative linguistics Robertson s work sets forth the basic universal assumptions that provide for an appropriate description of the grammatical systems of all languages It will be a significant reference for future researchers

The Comparative Method Reviewed Mark Durie,Malcolm Ross,1996-05-16 Historical reconstruction of languages relies on the comparative method which itself depends on the notion of the regularity

of change The regularity of sound change is the famous Neogrammarian Hypothesis sound change takes place according to laws that admit no exception The comparative method however is not restricted to the consideration of sound change and neither is the assumption of regularity Syntactic morphological and semantic change are all amenable in varying degrees to comparative reconstruction and each type of change is constrained in ways that enable the researcher to distinguish between regular and more irregular changes This volume draws together studies by scholars engaged in historical reconstruction all focussing on the subject of regularity and irregularity in the comparative method A wide range of languages are represented including Chinese Germanic and Austronesian **Newsletter** ,1988 Forthcoming Books Rose Arny,1996-10
