Macrowikinomics:

Macrowikinomics Don Tapscott, Anthony D. Williams, 2010-09-28 In their bestseller Wikinomics Don Tapscott and Anthony Williams showed the world how mass collaboration was changing the way businesses communicate create value and compete in the new global marketplace This sequel shows that in more than a dozen fields from finance to health care science to education the media to the environment we have reached a historic turning point Collaborative innovation is revolutionizing not only the way we work but how we live learn create govern and care for one another The wiki revolutions of the Arab Spring were only one example of how rebuilding civilization was not only possible but necessary With vivid examples from diverse sectors Macrowikinomics is a hand book for people everywhere seeking a transformation of industry and institutions by embracing a new set of guiding principles including openness and interdependence Tapscott and Williams argue that this new communications medium like the printing press before it is enabling nothing less than the birth of a new civilization

MacroWikinomics Don Tapscott, 2010-10-01 The sequel to the international 1 bestseller Wikinomics Wikinomics showed how mass collaboration was changing businesses around the world MacroWikinomics takes it beyond the boardroom to show how the mass collaboration is revolutionizing the way we live work and create The era of the monolithic self contained inwardly focused corporation is over In Wikinomics Don Tapscott and Anthony D Williams showed how the internet is changing the way the very smartest business managers think about structures and strategies in the 21st century Now in MacroWikinomics they demonstrate how this revolution in thinking is spreading outwards to other sectors from education and scientific institutions to entertainment and media to government and democracy MacroWikinomics is a groundbreaking and definitive look at achieving success for a new century a new media a new generation and a new economy

Sharing Cities Duncan McLaren, Julian Agyeman, 2015-12-04 How cities can build on the sharing economy and smart technology to deliver a sharing paradigm that supports justice solidarity and sustainability The future of humanity is urban and the nature of urban space enables and necessitates sharing of resources goods and services experiences Yet traditional forms of sharing have been undermined in modern cities by social fragmentation and commercialization of the public realm In Sharing Cities Duncan McLaren and Julian Agyeman argue that the intersection of cities highly networked physical space with new digital

technologies and new mediated forms of sharing offers cities the opportunity to connect smart technology to justice solidarity and sustainability McLaren and Agyeman explore the opportunities and risks for sustainability solidarity and justice in the changing nature of sharing McLaren and Agyeman propose a new sharing paradigm which goes beyond the faddish sharing economy seen in such ventures as Uber and TaskRabbit to envision models of sharing that are not always commercial but also communal encouraging trust and collaboration Detailed case studies of San Francisco Seoul Copenhagen Medellin Amsterdam and Bengaluru formerly Bangalore contextualize the authors discussions of collaborative consumption and production the shared public realm both physical and virtual the design of sharing to enhance equity and justice and the prospects for scaling up the sharing paradigm through city governance They show how sharing could shift values and norms enable civic engagement and political activism and rebuild a shared urban commons Their case for sharing and solidarity offers a powerful alternative for urban futures to conventional race to the bottom narratives of competition enclosure and division

Conscientious Thinking David Bosworth, 2017 David Bosworth cuts through all the noise of today's political dysfunction and cultural wars to sound the deeper causes of our discontent He explores the ways in which Americans are affected by the irreversible forces set loose by technology's drastic revision of our everyday lives *The Creative Destruction of Medicine* Eric Topol, 2012-01-31 A professor of medicine reveals how technology like wireless internet individual data and personal genomics can be used to save lives

Records and Information Management

Patricia C. Franks,2018-08-13 This book's authoritative blend of theory and practice makes it a matchless resource for everyone in the archives and records management field

Ireland's 1916 Rising Mark McCarthy,2016-05-06 In light of its upcoming centenary in 2016 the time seems ripe to ask why how and in what ways has memory of Ireland's 1916 Rising persisted over the decades In pursuing answers to these questions which are not only of historical concern but of contemporary political and cultural importance this book breaks new ground by offering a wide ranging exploration of the making and remembrance of the story of 1916 in modern times It draws together the interlocking dimensions of history making commemoration and heritage to reveal the Rising's undeniable influence upon modern Ireland's evolution both instantaneous and long term In addition to furnishing a history of the tumultuous events of Easter 1916 which rattled the British Empire's foundations and enthused independence movements elsewhere Ireland's 1916 Rising mainly concentrates on illuminating the evolving relationship between the Irish past and present In doing so it unearths the far reaching political impacts and deep seated cultural legacies of the actions taken by the rebels as evidenced by the most pivotal episodes in the Rising's commemoration and the myriad varieties of heritage associated with its memory This volume also presents a wider perspective on the ways in which conceptualisations of heritage culture and identity in Westernised societies are shaped by continuities and changes in politics society and economy In a topical conclusion the book examines the legacy of Queen Elizabeth II's visit to the Garden of Remembrance in 2011 and looks to the Rising's 100th anniversary by identifying the common ground that can be found in pluralist and reconciliatory approaches to remembrance

Economics of Collaboration in Performance Karen Savage,Dominic Symonds,2018-07-25 This is a book about collaboration in the arts which explores how working together seems to achieve more than the sum of the parts It introduces ideas from economics to conceptualize notions of externalities complementarity and emergence and playfully explores collaborative structures such as the swarm the crowd the flock and the network It uses up to date thinking about Wikinomics Postcapitalism and Biopolitics underpinned by ideas from Foucault Bourriaud and Hardt and Negri In a series of thought provoking case studies the authors consider creative practices in theatre music and film They explore work by artists such as Gob Squad Eric Whitacre Dries Verhoeven Pete Wyer and Tino Seghal and encounter both live and online collaborative possibilities in fascinating discussions of Craigslist and crowdfunding at the Edinburgh Festival What is revealed is that the introduction of Web 2.0 has enabled a new paradigm of artistic practice to emerge in which participatory encounters collaboration and online dialogue become key creative drivers Written itself as a collaborative project between Karen Savage and Dominic Symonds this is a strikingly original take on the economics of working together

Dialogue Gap Peter Nixon,2012-02-06 The book that bridges the chasm between communication and understanding in negotiations For years Peter Nixon worked with people from all walks of life teaching them the art of negotiation But it soon became apparent that the issue was not negotiation itself but dialogue between parties We have become experts at sending information via email text message Internet TV and other forms of

media communicating but not engaging in an active dialogue defined by collaborative thinking In *Dialogue Gap* Nixon explores this growing disconnect and its significance in an increasingly globalized world where the ability to engage with others in order to address issues like climate change cultural differences etc has become essential Helps the reader differentiate communication and dialogue Explores the make up and causes of the Dialogue Gap and what constitutes good dialogue the right people talking about the right issues in the right way at the right time and in the right place Identifies the most common reasons people don't dialogue effectively and provides helpful tips on how to engage in more effective productive dialogues Effective dialogue is essential for general success ensuring that all key stakeholders in business politics or elsewhere get what they want in the most efficient and productive way possible Looking at successful and failed dialogues the author has experienced first hand in Asia Europe North America the Caribbean and the Middle East in both the public and private sector from across industries *Dialogue Gap* provides essential information for making the most of your interactions with others

Extreme Mean Paula Todd, 2015-08-25 From one of Canada's foremost investigative writers a groundbreaking exposé on the motives and machinations behind cyberabuse tormenting trolling harassment cyberbullying stalking and sexual extortion and the toll it is taking on children youth and adults around the world Each week our news broadcasts newspaper headlines Twitter feeds and Facebook timelines are dominated by stories of cyberbullying and other digital abuse This isn't the playground teasing and name calling of generations before the Internet This new abuse's unique characteristics anonymity permanence and viral audience can relentlessly exacerbate the humiliation pain and danger of its victims Ugly rumours that once snaked through school hallways and around the office water cooler are now delivered at lightning speed to the world while sexual extortion and revenge porn sites target those who've shared intimate images or had them stolen by hackers Cyberstalkers who target adults destroy reputations and careers And the splendid connectivity of social media such as Facebook and Twitter also makes us vulnerable to interpersonal terrorism while apps that promise privacy and rapid deletion are riddled with loopholes With vivid reportage Paula Todd goes deep into the world of extreme mean uncovering the people who use the Internet to undermine lives rather than improve them Through exclusive personal stories of online abuse from around the world including the suicide of Amanda Todd and the untold costs of Rebecca Black's experience as the most hated girl on the Internet as well as interviews with troll tormentors accidental abusers victimized kids and adults *Extreme Mean* explores the often surprising roots of online abuse challenges current academic thinking and offers new ways of understanding the nasty and the nefarious who erode humanity and threaten Internet freedom **Digital**

Vertigo Andrew Keen, 2012-05-22 *Digital Vertigo* provides an articulate measured contrarian voice against a sea of hype about social media As an avowed technology optimist I'm grateful for Keen who makes me stop and think before committing myself fully to the social revolution Larry Downes author of *The Killer App* In *Digital Vertigo* Andrew Keen presents today's social media revolution as the most wrenching cultural transformation since the Industrial Revolution Fusing a fast paced

historical narrative with front line stories from today's online networking revolution and critiques of social companies like Groupon Zynga and LinkedIn Keen argues that the social media transformation is weakening disorienting and dividing us rather than establishing the dawn of a new egalitarian and communal age The tragic paradox of life in the social media age Keen says is the incompatibility between our internet longings for community and friendship and our equally powerful desire for online individual freedom By exposing the shallow core of social networks Andrew Keen shows us that the more electronically connected we become the lonelier and less powerful we seem to be

Leading the Epic Revolution Hunter Muller, 2013-05-15 A must read leadership guide for CIOs and executives whose careers depend on creating value and growth through continuous innovation Innovation is the hot topic Everyone's talking about it but there seems to be a lot of misperceptions about getting it done Innovating for Growth and Value is aimed at CIOs and other technology leaders in the modern enterprise This insider's guide to innovation presents repeatable processes detailed methodologies and robust frameworks for innovation and continuous transformation in today's fast paced business environments It provides actionable programs for developing and successfully executing profitable and repeatable innovation strategies Focuses on specific critical areas where innovation is imperative Features real world stories and revealing anecdotes Presents interviews from international companies such as Netflix IBM Cisco Boeing Facebook Intel Microsoft McKesson Flextronics and more Without innovation your company cannot compete and cannot survive So the real question isn't whether to innovate or not The real question is how to innovate and make innovation strategies work in the modern enterprise Thoughtfully written and carefully researched Innovating for Growth and Value grasps the central truth about innovation with a wealth of information made truly valuable for IT leaders and CIOs
