with buy in and from top management The book covers the necessary level of strategic thinking to put their ideas into practice Once this is achieved the strategic process is explained including the need to build the different steps into this process and into the overarching business goals of the organisation will be demonstrated The book provides numerous hand on examples of how to formulate and execute the strategic master plan for the organization The authors draws on his extensive experience and successes to serve as a valuable resource to all security professionals looking to advance their careers in the field
