

Overview

Introduction

In a sense, it is the history of management in business, showing how authority, responsibility, decision-making authority, and control have been distributed in time and space. Management is the process of planning, organizing, leading, and controlling the organization's resources to achieve its purpose.

Learning Objectives

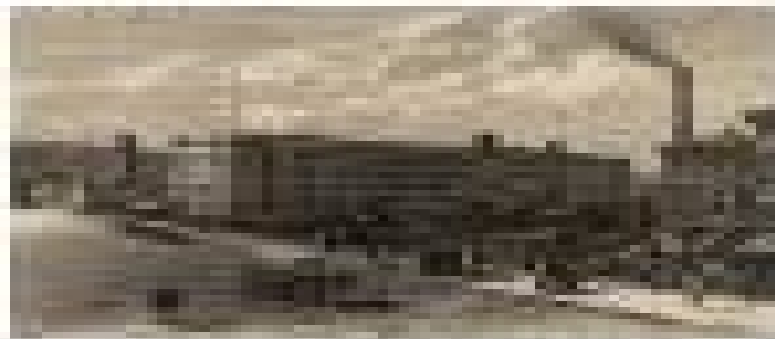

After a session of the course, you should also be able to:

- 1. describe the management process and the different management functions and their interrelationships.
- 2. identify the management process and the different management functions and their interrelationships.
- 3. explain the management process and the different management functions and their interrelationships.
- 4. describe the management process and the different management functions and their interrelationships.
- 5. explain the management process and the different management functions and their interrelationships.

Learning Objectives of the Course

The first learning objective of the course is to understand the history and development of the [management process](https://www.mba.com/).

Introduction to Management Theory

The first learning objective of the course is to understand the history and development of the management process. This is an important objective as the history of management is a key factor in understanding the current state of the field. The history of management is a long and complex one, with many different theories and practices that have evolved over time.
