The Global Free Trade Error Ron Baiman,2017-02-24 The doctrine of free trade is second only to that of free markets in undergirding ideological support for our current global economic structures and rules From David Ricardo s comparative advantage principle to James Meade s Neoclassical or mainstream economics proof of self adjusting free trade equilibrium the free trade doctrine has had a lasting and destructive hold on Neoclassical economic thinking since its inception The Global Free Trade Error provides a detailed analysis of these foundational models and counter poses these to alternative Neo Marxist unequal exchange models of global trade and finance In the first part of the book the three core free trade models alluded to above are respectively demonstrated to be overdetermined inapplicable and infeasible In particular Ricardo s parable is shown to support managed

trade rather than free trade as Ricardo and two centuries of economic texts have claimed In the second part of the book unequal exchange analyses of global trade are shown to provide logically coherent and useful insights into global trade and finance In the third and final part of the book this unequal exchange perspective is used within a general demand and cost setting to develop a set of global managed trade principles for a more equitable and sustainable world trade regime This book will be of great interest to those who study political economy history of economic thought and international trade including trade agreements and tariffs

Planning the Development of Builders, Leaders and Managers for 21st-Century Business: Curriculum Review at Columbia Business School N. Capon,2012-12-06 Business and management education has an important impact on business practice throughout the world To a very large extent possession of the MBA degree is a passport into the upper reaches of management and CEOs of many major corporations have earned an MBA It is a reasonable inference that the education received by these leaders and managers during their MBA experience has an important impact on the way that businesses throughout the world are led and managed and that major corporate decisions are made The heart of the MBA education is the curriculum and curriculum design is perhaps the most important strategic function for a business school faculty to undertake In order to understand the many issues concerning this contemporary curriculum review this book examines three related contextual domains First it details the long term growth of business and management education Second it examines the major theoretical and empirical literatures on organizational evolution and decision making paying special attention to decision making in institutions of higher education Finally the book describes the previous major curriculum review at Columbia Business School in the late 1950s and the subsequent changes that formed the curriculum that was changed in 1992 This book demonstrates what can be achieved by an institution that sets high standards for its business education and assists faculty and administrators in other schools of business and management as they contemplate revision of their curricula In addition it provides a prime example of curriculum design effort in one of the leading institutions worldwide Finally it will be of interest to scholars in several different fields notably higher education curriculum review organizational decision making and long run organizational evolution
