leisure

...a time during which somebody has no obligations or work responsibilities, and therefore is free to engage in enjoyable activities.

... is time spent away from business, work, and domestic chores.

...activities people enjoy when they are not working – work is the opposite of leisure.
Sleeping does not count as leisure, because during sleep people are not consciously engaged in an activity.

...activities involve people when they are wake and not working – they are **activities that allow people to relax and enjoy.**

recreation

...refers to the time spent in an activity one loves to engage in, with an intent to feel refreshed.

...it is a break from monotony and a diversion from the daily routine.
