

Introduction to ISO 19011:2018

- **Main Differences 3rd Version (2018) Vs 2nd Version (2011)**
 - Addition of the risk-based approach to the principles of auditing
 - Expansion of the guidance on managing an audit programme, including audit programme risk
 - Expansion of the guidance on conducting an audit, particularly the section on audit planning
 - Expansion of the generic competence requirements for auditors
 - Adjustment of terminology to reflect the process and not the object (“thing”)
 - Removal of the annex containing competence requirements for auditing specific management system disciplines (due to the large number of individual management system standards, it would not be practical to include competence requirements for all disciplines)
 - Expansion of [Annex A](#) to provide guidance on auditing (new) concepts such as organization context, leadership and commitment, virtual audits, compliance and supply chain
