A. Bayly, Walter Scheidel, 2020-12-02 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases The Indian Ocean in the Making of Early

S. Grewal, 2005 This is also a truly pan Indian volume on medieval Indian history as it looks at state forms and social organizations among the Cholas the Delhi Sultans the Sultans of Bengal Himachal Kumaon and Garhwal medieval Rajasthan the Vijayanagar State Kerala the Mughal Empire Marahstra and the Punjab The contributors include eminent medievalist **Climate of Conquest** Pratyay Nath, 2019-06-28 What can war tell us about empire In *Climate of Conquest* Pratyay Nath seeks to answer this question by focusing on the Mughals He goes beyond the traditional way of studying war in terms of battles and technologies Instead he unravels the deep connections that the processes of war making shared with the society culture environment and politics of early modern South Asia *Climate of Conquest* closely studies the dynamics of the military campaigns that helped the Mughals conquer North India and project their power beyond it The author argues that the diverse natural environment of South Asia deeply shaped Mughal military techniques and the course of imperial expansion He also sheds light on the world of military logistics labour animals and the organization of war the process of the formation of imperial frontiers and the empire's legitimization of war and conquest What emerges is a fresh interpretation of Mughal empire building as a highly adaptive flexible and accommodative process **The World in the Year 1000** James Heitzman, Wolfgang Schenkluhn, 2004-04-09 The *World in the Year 1000* is organized in four thematic sections covering five world regions Europe the Islamic world India China and Mesoamerica All contributions in this volume are original works by many of today's leading scholars **Vali Dakhani and the Early Rekhtah Networks** Heidi Pauwels, Purnima Dhavan, 2025-05-30 This book reexamines the emergence of Urdu as a literary and poetic language in the 18th century at the time called Rekhtah highlighting its engagement with diverse regional cultures and communities in South Asia *Sharing Poetry's Pleasures* reframes the history of

Urdu within the diverse contexts from which it emerged It places the earliest Urdu Rekhtah poets and their craft in the lively social gatherings bazaars shrines and courts of 18th century South Asia Through aesthetic analysis and historical contextualization of poems using primary sources in manuscripts the authors reveal why everyday vernaculars multi lingual puns alongside the use of courtly Persian and complex metaphors attracted a wide audience for this new literary language Dhavan and Pauwels re examine the long dominant mischaracterization of Urdu as an elite language of South Asian Muslims by analysing the poetic biographies of Vali Dakhani and his contemporaries Fa iz Abru and Hatim The authors reveal how selective attention to a handful of poets and rarefied courtly texts obscured the much more diverse roots of an important vernacular tradition thereby reconstructing a lost literary network of speakers poets and participants in Urdu s past

Creating A World Economy Alan K. Smith, 2019-04-02 This is an exploration in world history that examines complex and intriguing questions concerning the origins of the first truly global economy centered in Europe which served in turn as a solid basis for the later emergence of the modern world system Professor Smith first examines the remarkable progress achieved by many cultures around the world achievements that for some time far exceeded anything then found in Europe The study then probes beyond traditionalism as a sufficient explanation of the inability of these societies to maintain the economic momentum that had begun so auspiciously and carefully examines the experience of European societies by way of comparison finding that remarkably similar processes tended to unfold at first regions of Europe that made the earliest gains in material progress were like other parts of the world unable to sustain these advances Still in some parts of Europe particularly the Netherlands and England a new alignment of social forces was yielding the social system that would eventually evolve into capitalism This breakthrough allowed for continued dynamic material progress particularly for the English Able to establish an unprecedented commercial dominance in vast reaches of the world the British found themselves at the hub of a new world economy much more complex than any earlier intercultural commercial system The book delineates the systemic roles assumed by the various regions of the world and by European merchant capital and explains the tensions within this system that ensured its continued dynamism and eventual

transformation into the current world economic system Creating a World Economy combines an epic sweep with a mastery of historical detail and is sure to stimulate discussion among sociologists and historians interested in questions of a global nature
