G.I. Joe - Cobra #0 - 21 (2011-2013), A continuation of G I Joe Cobra Mini Series G I Joe Cobra After issue 21st issue it continues in G I Joe The Cobra Files The series initially followed the members of COBRA during the events of Cobra Civil War and Cobra Command story arcs At issue 13 the series changed focus to Flint and his covert ops team of G I Joes run out of a casino in Las Vegas with Tomax as an informant asset Gender in Post-9/11 American Apocalyptic TV Eve Bennett, 2019-01-10 In the years following 9 11 American TV developed a preoccupation with apocalypse Science fiction and fantasy shows ranging from Firefly to Heroes from the rebooted Battlestar Galactica to Lost envisaged scenarios in which world changing disasters were either threatened or actually took place During the same period numerous commentators observed that the American media's representation of gender had undergone a marked regression possibly it was suggested as a consequence of the 9 11 attacks and the feelings of weakness and insecurity they engendered in the nation's men Eve Bennett investigates whether the same impulse to return to traditional images of masculinity and femininity can be found in the contemporary cycle of apocalyptic series programmes which like 9 11 itself present plenty of opportunity for narratives of damsels in distress and heroic male rescuers However as this book shows whether such narratives play out in the expected manner is another matter

Programming the Future Sherryl Vint, Jonathan Alexander, 2022-11-01 From 9 11 to COVID 19 the twenty first century looks increasingly dystopian and so do its television shows Long form science fiction narratives take one step further the fears of today liberal democracy in crisis growing economic precarity the threat of terrorism and omnipresent corporate control At the same time many of these shows attempt to visualize alternatives using dystopian extrapolations to spotlight the possibility of building a better world Programming the Future examines how recent speculative television takes on the

contradictions of the neoliberal order Sherryl Vint and Jonathan Alexander consider a range of popular SF narratives of the last two decades including *Battlestar Galactica* *Watchmen* *Colony* *The Man in the High Castle* *The Expanse* and *Mr Robot* They argue that science fiction television foregrounds governance as part of explaining the novel institutions and norms of its imagined futures In so doing SF shows allegorize and critique contemporary social political and economic developments helping audiences resist the naturalization of the status quo Vint and Alexander also draw on queer theory to explore the representation of family structures and their relationship to larger social structures Recasting both dystopian and utopian narratives *Programming the Future* shows how depictions of alternative world political struggles speak to urgent real world issues of identity belonging and social and political change

Transmedia Television M.J. Clarke,2012-12-20 Faced with what many were calling a dying medium US network television producers became much more aggressive in seeking out alternative business and artistic models in the beginning of this century Most significantly many of these producers turned to the emerging field of transmedia ancillary texts in comicbooks novels and new media as a way to bolster and support television products In this book the author examines four such programs 24 *Alias* *Heroes* and *Lost* and investigates how transmedia was incorporated into both the work and the art of network television production Split into two complementary parts the book first paints a picture of how transmedia producers were or were not incorporated into creative decision making centers of these serialized programs The second section explains how the presence of off site transmedia texts begins to alter the very narrative construction of the on air series themselves Including interviews with the transmedia workers this groundbreaking study extends the field of television studies into brand new areas and brings a dying medium into the 21st Century
