Globalization in 2020 Janet P. Brown, 2006 This book presents an analysis of globalisation as it is projected to be in 2020 It is based on a Report of the National Intelligence Council's 2020 Project based on consultations with non governmental experts around the world

The Red Spectre Pasquale De Marco, 2025-04-16 The Cold War was a global conflict that lasted for over four decades from the end of World War II to the collapse of the Soviet Union in 1991 It was a period of intense rivalry between the United States and the Soviet Union and it had a profound impact on the world including Latin America In this book we examine the history of the Cold War in Latin America and its impact on the region We explore the factors that led to the failure of the Alliance for Progress a massive aid program that was designed to help Latin American countries develop their economies and improve the lives of their people We also consider the lessons that can be learned from this experience Latin America was a key battleground in the Cold War The region was home to a number of countries that were struggling with poverty inequality and political instability This made them ripe for exploitation by communist regimes who promised to bring about a more just and equitable society The United States was determined to prevent the spread of communism in Latin America It launched a series of initiatives aimed at bolstering the region's economies and strengthening its military forces However these efforts were often counterproductive They exacerbated the problems that the United States was trying to solve and they led to a great deal of resentment among Latin Americans The failure of the Alliance for Progress was a major setback for the United States It left the region even more vulnerable to the spread of communism and a number of countries eventually fell under communist rule The Cold War in Latin America was a

complex and multifaceted conflict and its legacy continues to shape the region today This book is a comprehensive and authoritative account of the Cold War in Latin America It is essential reading for anyone who wants to understand the history of the region and its current challenges If you like this book write a review on google books **China in the World** Kok Kheng Yeoh,2008 *Beyond the World of Titans, and the Remaking of World Order* Peter Baofu,2007 Contrary to the conventional wisdom held by many not only the dominance of the U S in the post Cold War era is much exaggerated but also its days as a hyper power are ending Instead the world is slowly but steadily evolving towards what Dr Baofu originally calls the dawn of the post post Cold War era in the world of titans for a tremendous remaking of world order to be governed by different types of empires crossing regional borders This has important implications for understanding the logic of empire building be it in the past present or future to the extent that the current theoretical debate on international relations among different paradigms is as much misleading as obsolete The current debate also obscures something more tremendous in the long run in relation to the emergence of what Dr Baofu proposes as the union of the unions in the farther future that humans have never known both here on earth and later in deep space Asian Studies ,1995 *China and Malaysia in a Globalizing World* Kok Kheng Yeoh,Guozhong He,2006 The research papers collected in this volume cover the critical aspects of the issue from various different perspectives ranging from China s changing political and economic relations with Malaysia and Southeast Asia to the impact of her WTO membership on the regional economy from the thorny issue of nationality and citizenship in particular related to the new Chinese migrants to China s domestic challenges engendered by the country s retreat from equality growing interregional disparity increased local autonomy rapid economic growth and increasingly globalizing trade and business linkages *International Politics in a Changing World* Glenn P. Hastedt,Kay M. Knickrehm,2003 This highly praised new text provides superior coverage of IR history focuses on the changing nature of foreign policy challenges and ends with a unique Regional Applications section that drives home the regional nature of IR today Written in the belief that students need to know the Cold War legacy of international relations in order to truly understand present and future IR issues Hastedt and Knickrehm s new text provides a historical perspective and examines how foreign policy challenges have and continue to change The book s theme of A Changing World focuses on the differences between Cold War policy and post Cold War policy as an intuitive framework for better understanding the IR issues confronting us at the beginning of the 21st century Because so many IR issues in today s world are regional in nature a unique Regional Applications ends the text providing a series of chapters on various regions that will help students understand key actors and potential flashpoints of politics in the 21st Century **Great Power Aerospace Development** Andrew S. Erickson,2006 **The China and Eurasia Forum Quarterly** ,2006 **Living in a Material World** Kevin Morrison,2008-07-28 Since the commodity boom has unfolded commodities have gone from the back page of the newspaper to the front with more and more headlines about record food and oil prices dire climate change warnings energy security and

China's demand for more raw materials Living in a Material World makes the link between raw materials and the consumer and shows how they are relevant to everybody everyday now more so than at any time since the last oil shock nearly three decades ago A unique insight into this once in a generation boom the book shows how the increasing value of commodities is impacting on consumers and investors in ways we are only just beginning to understand BOOK JACKET *Viet Nam Social Sciences*, 2005

Reconstructing the World Economy Il SaKong, 2010-07-19 This volume presents papers from a conference organized by the Korea Development Institute and the IMF The purpose of this high level conference was for policymakers and academics from the Asian region and from G 20 countries to discuss forward looking economic and financial issues of interest to the international community such as restoring normalcy to fiscal policy macroprudential regulation the future of the financial system global fiscal imbalances and the international monetary system Topics include 1 A strategy for renormalizing fiscal and monetary policies in advanced economies Key principles for restoring financial stability in the wake of the crisis including the timing and sequence for exit are identified 2 Rethinking macroeconomic policy This section examines if and how macroeconomic policy should respond to sectoral imbalances and asset price and housing imbalances as well as a potential role for macroprudential regulation 3 Redesigning the financial system of the future Responses by both policymakers and the private sector to recent events are evaluated in terms of how they will shape the future financial system and its role in the global economy 4 Global imbalances The argument is made that there is an urgent need to address the domestic and international distortions that are a key cause of imbalances failure to do so would threaten the sustainability of the recovery 5 The future of the international monetary system Steps that can be taken to address the inherent weaknesses in the current system are described including possible solutions on both the demand side and on the supply side
