The Philosophy Clinic Stephen J. Costello, 2017-01-06 This collection of essays and interviews highlights the modern movement of philosophical practice Taking their cue and call from Socrates summons to know thyself contemporary philosophical counsellors and practitioners have returned to the ancient understanding of philosophy as consolation and contemplation as a life directed to the loving search for wisdom and clarity Socrates and the Stoics continued this tradition seeing philosophy primarily as a practical way of living in alignment with oneself and the logos Thus interpreted philosophy is a path teaches a method more than pronounces a thesis and issues a living praxis devoted to daily spiritual exercises whose aim is nothing less than the transformation of the self a metamorphosis of the personality This conception of philosophy's essence was lost but was later retrieved by certain philosophers such as Viktor Frankl and Ludwig Wittgenstein in the twentieth century who have unleashed and uncovered philosophy's original therapeutic impulse and intent As such this book will prove of inestimable value to philosophers psychologists psychotherapists psychiatrists counsellors clients and students of these disciplines

Sartre and Psychoanalysis Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's

psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy
