## **The Human Predicament Butler University:**

**The Human Predicament II** Dennis V. Razis, 2003      *The Human Predicament in Hardy's Novels* Jagdish Chandra Dave, 1985      **Joan Didion and the Ethics of Memory** Matthew R. McLennan, 2021-10-07 Looking at the breadth of Joan Didion's writing from journalism essays fiction memoir and screen plays it may appear that there is no unifying thread but Matthew R. McLennan argues that the ethics of memory the question of which norms should guide public and private remembrance offers a promising vision of what is most characteristic and salient in Didion's works By framing her universe as indifferent and essentially precarious McLennan demonstrates how this outlook guides Didion's reflections on key themes linked to memory namely witnessing and grieving nostalgia and the paradoxically amnesiac qualities of our increasingly archived public life that she explored in famous texts like *Slouching Towards Bethlehem* *The Year of Magical Thinking* and *Salvador* McLennan moves beyond the interpretive value of such an approach and frames Didion as a serious iconoclastic philosopher of time and memory Through her encounters with the past the writer is shown to offer lessons for the future in an increasingly perilous and unsettled world      [War on the Human](#) Konstantinos Blatanis, Theodora Tsimpouki, 2017-05-11 The essays in this collection explore the question of the human both as a contested concept and as it relates to and functions within the wider global conjuncture The authors explore the theoretical underpinnings of the term human inviting the reader to reflect upon the contemporary human condition to identify opportunities and threats in the changes ahead and to determine what aspects of our species we should abandon or strive to maintain The volume approaches these ideas from a myriad of perspectives but the authors are united in their abstention from rejecting humanism outright or indeed fully endorsing posthumanism's teleological narrative of accelerated progress and perfectability Instead the authors argue that the term human itself is better understood as a concept perpetually undergoing revision and is necessarily subject to scrutiny The contributors here are thus concerned with investigating the following questions What does it mean to be human or to have a self What is the current place or status of the human in the contemporary world As technology is increasingly used to modify our bodies and minds to what extent should we alter and how can we improve our very understanding of human nature The authors contend that literature is the art form best placed to answer these questions In its dynamism and discursiveness literature has the capacity to both reflect dominant discourses and ideologies as well as to generate and even anticipate social change to critique and refine conventional ideas and existing cultural modes and to envision new possibilities for the future The human and its literary representation in other words are inherently intertwined      [The Things That Really Matter](#) Michael Hauskeller, 2022-05-10 While being rooted in the academic discourse *The Things That Really Matter* comprehensively explores the most fundamental aspects of human life in an accessible non technical language adding fresh perspectives and new arguments and considerations that are designed to stimulate further debate and in some cases a deliberate redirection of research interests in the respective areas It features a series of conversations about the

things in our life that we all in one way or another wrestle with if we are at all concerned about what kind of world we live in and what our role in it is things like birth age and death good and evil the meaning of life the nature of the self and the role the body plays for our identity our gendered existence love and faith free will beauty and our experience of the sacred Situating abstract ideas in concrete experience *The Things That Really Matter* encourages the reader to participate in an open ended dialogue involving a variety of thinkers with different backgrounds and orientations Lively and accessible it shows thinking as an open ended process and a collaborative endeavour that benefits from talking to each other rather than against each other featuring real conversations where ideas are explored tested changed and occasionally dropped It is thinking in motion personal yet universal      [Dictionary of World Philosophy](#) A. Pablo Iannone,2013-04-15 The Dictionary of World Philosophy covers the diverse and challenging terminology concepts schools and traditions of the vast field of world philosophy Providing an extremely comprehensive resource and an essential point of reference in a complex and expanding field of study the Dictionary covers all major subfields of the discipline Key features Cross references are used to highlight interconnections and the cross cultural diffusion and adaptation of terms which has taken place over time The user is led from specific terms to master entries which provide valuable historical and cultural context Each master entry is followed by at least two suggestions for further reading on the subject creating a substantial bibliography of world philosophy References extend beyond philosophy to related areas such as cognitive science computer science language and physics Subdisciplines covered include aesthetics ethics sociopolitical philosophy the philosophy of law epistemology logic the philosophy of science the philosophy of mind the philosophy of culture and history metaphysics the philosophy of religion Entries are drawn from West Africa Arabic Chinese Indian Japanese Jewish Korean Latin American Maori and Native American philosophy including the important and so far largely neglected instance of Pre Hispanic thought Nahua philosophy      *Content, Consciousness, and Perception* Conor McHugh,Ezio Di Nucci,2009-01-14 What sort of thing is the mind And how can such a thing at the same time belong to the natural world represent the world give rise to our subjective experience and ground human knowledge *Content Consciousness and Perception* is an edited collection comprising eleven new contributions to the philosophy of mind written by some of the most promising young philosophers in the UK and Ireland The book is arranged into three parts Part I Concepts and Mental Content which begins with an attack by Hans Johann Glock on the representational theory of mind addresses the nature of mental representation Part II Consciousness and the Metaphysics of Mind concerns the prospects for a naturalistic metaphysics of the conscious mind Finally Part III entitled Perception pursues the project of giving a satisfactory philosophical account of perceptual experience The book begins with an introductory essay by the editors which provides an overview of the state of contemporary philosophy of mind locating the articles to follow within that context The individual chapters of *Content Consciousness and Perception* are professional contributions to their respective areas of interest to any philosopher of mind The volume as a whole is ideal for non specialists and students

*Sexing Hardy* Margaret Elvy,1998 SEXING HARDY THOMAS HARDY AND FEMINISM There are surprisingly few feminist analyses of the work of British novelist Thomas Hardy and most do not get beyond vague notions of sexism and misogyny in the Kate Millett and second wave feminist manner Margaret Elvy's book however uses up to date research in the fields of cultural studies feminist poetics gay lesbian and queer theory This new postmodern and incisive exploration of Thomas Hardy offers an exciting and radical reappraisal of the discourses of gender desire class economy socialization identity and patriarchy in his fiction and poetry This new edition of *Sexing Hardy* includes a new introduction and a new bibliography

EXTRACT FROM CHAPTER ONE THOMAS HARDY AND FEMINISM Is Thomas Hardy a feminist Are Thomas Hardy's works feminist How much do his works reflect and bolster the patriarchal attitudes and behaviour of his era and how much do they question them What is the relation between Hardy and the feminists of his time And what is the link between Hardy's works and the feminism of the early 21st century Thomas Hardy's theme is what you might call Wessexuality Wessex mania Wessex politics Hardy's works are sexist patriarchal and masculinist and yet they question notions of sexism gender identity patriarchy and masculinism A text such as *Tess of the d'Urbervilles* is traditional and follows patriarchal codes and morals Yet it also questions them and offers a number of feminist critiques of late 19th century society In his letters Thomas Hardy proposed feminist views he wrote to feminists such as the suffragette leader Millicent Fawcett that a child was the mother's own business not the father's *Collected Letters* 3 238 One can see these feminist sentiments in for example Hardy's treatment of Tess in her motherhood she works in the fields just a few weeks after the birth even though she is melancholy she seems to be suffering a mild form of post natal depression Tess further subverts patriarchy by taking her child's baptism into her own hands She goes against her father the vicar and the whole church with her self made baptism Thomas Hardy's novels were not always received favourably by women critics and readers Hardy's own views expressed outside of the novels did not always square with those of feminists of the 1880s and 1890s The ideological gap between Hardy and the women critics and feminists of the late 19th century is illustrated by Hardy's remark to Edmund Yates in 1891 many of my novels have suffered so much from misrepresentation as being attacks on womankind *Collected Letters* I 250 Hardy hoped that works such as *Tess of the d'Urbervilles* would redress the balance **Nineteenth-century Literature** ,1986-06 **Project(ing) Human: Representations of Disability in Science Fiction** Courtney

Stanton,2023-05-30 This edited volume examines representations of disability within popular science fiction using examples from television film literature and gaming to explore how the genre of science fiction shapes cultural understanding of disability experience Science fiction texts typically grapple with concepts such as transhumanism embodiment and autonomy more directly than do those of other genres In doing so they raise significant questions about the experience of disability

More broadly they often convey the place of disability in not only the future but also the world of today Through critical research the chapters within this interdisciplinary collection explore what science fiction texts convey about the value of disability whether it be through disabled characters biotechnologies or more broadly conceptions of an idealized future Chapters are grouped thematically and include discussions of the intersections of disability with other identity groups the interplay of disability and market capitalist value and how disability shapes current and future definitions of human ness agency and autonomy This full volume builds on current research regarding the relationship of disability studies to the science fiction genre by exploring new themes and contemporary media to aid as an instructional tool for scholars in fields of disability studies science fiction literature and media studies *T.S.
