Kristiansen, Robert Rasmussen, 2014-07-21 *Unleash innovation potential with creative serious play Building a Better Business Using the LEGO SERIOUS PLAY Method* delivers a creative approach to enhancing innovation and improving business performance with the focus on unleashing play. Written by the two original Master Trainers for LEGO SERIOUS PLAY LSP, the book outlines how LSP can develop teams, people relationships and business. Based on the merging of play with organizational development, systems thinking and strategy development, LSP can foster improved meetings, faster innovation processes, team growth and better communication. The belief that everyone intends to do good and has the potential to do it is at the heart of LSP. The method nurtures the idea that everyone in an organization can contribute to discussions and outcomes. Building with LEGO bricks is a type of creative play that triggers a different kind of thought process, unleashing imagination and potential that is frequently untapped by the logical mind. The book explains this hands-on, minds-on approach and discusses the theory as well as the practical implementation of LSP. Topics include: Observation of internal and external interaction dynamics; Fostering a free and honest exchange of opinions; Suspending hierarchy for better, more effective communication; Facilitating change by encouraging exploration. The LEGO SERIOUS PLAY method is employed by start-ups and multinational corporations alike to maximize synergy among teams and throughout organizations. For leaders looking to boost effectiveness and see better results, *Building a Better Business Using the LEGO SERIOUS PLAY Method* is a comprehensive introduction to this creative management technique. *Marketing Communications* Micael Dahlen, Fredrik Lange, Terry Smith, 2009-12-21 *Marketing Communications: A Brand Narrative Approach* is a mainstream student-driven text which gives prominence to the driving force of all Marketing Communications: the imperative of Branding. The book aims to engage students in an entertaining, informative way, setting the conceptual mechanics of Marketing Communications in a contemporary, dynamic context. It includes key current trends such as Brand narrative approach. Cases such as Dove, Harley Davidson, Nike and World of Warcraft feature real-life salient examples which are engaging for students and reflect the growth of co-authored brand stories to help build and maintain brands by customer engagement through meaningful dialogues. Media-neutral, multi-media approach. This text has a sound exploration of online and offline synergy, combining one message delivery and multi-media exposures through examples of companies and political campaigns using non-traditional media to reach groups not locking into normal channels. This brand-new text features an impressive mixture of real-life brand case studies underpinned with recent academic research and market place dynamics. The format is structured into three sections covering analysis, planning and implementation and control of Marketing Communications. Using full-colour examples of brands and student-friendly diagrams, the book acknowledges that the modern student learns visually as well as through text.
