apparatus of fame operates Rethinking Therapeutic Culture Timothy Aubry, Trysh Travis, 2015-06-05 Social critics have long lamented America's descent into a culture of narcissism as Christopher Lasch so lastingly put it fifty years ago. From first world problems to political correctness, from the Oprahfication of emotional discourse to the development of Big Pharma products for every real and imagined pathology, therapeutic culture gets the blame. Ask not where the stereotype of feckless, overmedicated, half-paralyzed millennials comes from; for it comes from their parents' therapist's couches. Rethinking Therapeutic Culture makes a powerful case that we've got it all wrong. Editors Timothy Aubry and Trysh Travis bring us a dazzling array of contributors and perspectives to challenge the prevailing view of therapeutic culture as a destructive force that encourages narcissism, insecurity, and social isolation. The collection encourages us to examine what legitimate needs therapeutic practices have served and what unexpected political and social functions they may have performed. Offering both an extended history and a series of critical interventions organized around keywords like pain, privacy, and narcissism, this volume offers a more nuanced, empirically grounded picture of therapeutic culture than the one popularized by critics. Rethinking Therapeutic Culture is a timely book that will change the way we've been taught to see the landscape of therapy and self-help.

How Evil Works David Kupelian, 2010-02-16 David Kupelian, veteran journalist and bestselling author of The Marketing of Evil, probes the millennia-old questions of evil: what it is, how it works, and why it so routinely and effortlessly ruins our lives. Once again demonstrating his uncanny knack for demystifying complex, elusive, and intimidating subjects with fresh insights into the hidden mechanisms of seduction, corruption, religion, and power politics, analyzing today's most electrifying news stories and hot button topics, Kupelian explores such profoundly troubling questions as: Why are big lies more believable than little ones? How does terrorism really work? Why do so many celebrities who have it all end up self-destructing? Why are boys doing worse in school today than girls? Why do we treat the problems of anger and depression with drugs and much more? Fortunately, once we really understand how evil works, both in our own lives and in the world at large, evil loses much of its power and the way out becomes more clear.

The Subversive Evangelical Peter J. Schuurman, 2019-06-30 Evangelicals have been scandalized by their association with Donald Trump; their megachurches summarily dismissed as religious Wal-marts. In The Subversive Evangelical, Peter Schuurman shows how a growing group of reflexive evangelicals use irony to critique their own tradition and distinguish themselves from the stereotype of right-wing evangelicalism. Entering the Meeting House, an Ontario-based Anabaptist megachurch as a participant-observer, Schuurman discovers that the marketing is clever and the venue, a rented movie theatre, is attractive to the more than five thousand weekly attendees. But the heart of the church is its charismatic leader, Bruxy Cavey, whose anti-religious teaching and ironic tattoos offer a fresh image for evangelicals. This charisma, Schuurman argues, is not just the power of one individual; it is a dramatic production in which Cavey, his staff, and attendees cooperate, cultivating an identity as an irreligious megachurch and providing followers with a more culturally acceptable way to practise their faith in a secular age. Going behind the scenes

to small group meetings church dance parties and the homes of attendees to investigate what motivates these reflexive evangelicals Schuurman reveals a playful and provocative counterculture that distances itself from prevailing stereotypes while still embracing a conservative Christian faith *Secular, Sacred, More Sacred* Stuart Brooking, Paul Branch, Federico G. Villanueva, 2021-10-06 The sacred secular divide continues to threaten the health of the global church disempowering lay Christians and undermining the call to integrate all aspects of life under the lordship of Christ Theological educators seeking a path out of this dichotomy will find themselves both challenged and encouraged by this collection of essays drawn from the 2018 ICETE conference in Panama City Within its four sections contributors explore biblical frameworks for integration urge seminaries to value identity formation as much as skill acquirement call for a robust theology of work and challenge theologians to consider their responsibility to the world beyond the church's borders Filled with thought provoking questions and practical suggestions this book is an excellent resource for all those pursuing a holistic approach to theological education
