The Competition Car Data Logging Speedpro Series:

The Competition Car Data Logging Manual Graham Templeman, 2008 Aimed at amateur racers this title offers a no nonsense direct approach to the use of electronic performance data logging to improve the performance of both car and driver

La Carrera Panamericana Johnny Tipler, 2008 Through photos of the stunning countryside and cities visited en route action shots and parc ferme interviews with drivers and key personnel plus vivid narrative readers are transported to Mexico for an eye witness account of the fantastic Carrera Panamericana The World's Greatest Road Race It's a tale of two halves the early years full of excitement glamour financial intrigue and tragedy a time when major players in the auto industry got in on

Racecar Engineering, 2009

Runways & Racers Terry O'Neil, 2011 Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events

Northeast American Sports Car Races 1950-1959 Terry O'Neil, 2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding The transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in

Analysis Techniques for Racecar Data Acquisition Jorge Sergers, 2014-02-24 Racecar data acquisition used to be limited to well funded teams in high profile championships Today the cost of electronics has decreased dramatically making them available to everyone But the cost of any data acquisition system is a waste of money if the recorded data is not interpreted correctly This book updated from the best selling 2008 edition contains techniques for analyzing data recorded by any vehicle's data acquisition system It details how to measure the performance of the vehicle and driver what can be learned from it and how this information can be used to advantage next time the vehicle hits the track Such information is invaluable to racing engineers and managers race teams and racing data analysts in all motorsports Whether measuring the performance of a Formula One racecar or that of a road legal street car on the local drag strip the dynamics of vehicles and their drivers remain the same Identical analysis techniques apply Some race series have restricted data logging to decrease the team's running budgets In these cases it is extremely important that a maximum of information is extracted and interpreted from the hardware at hand A team that uses data more efficiently will have an edge over the competition However the ever decreasing cost of electronics makes advanced sensors and logging

capabilities more accessible for everybody With this comes the risk of information overload Techniques are needed to help draw the right conclusions quickly from very large data sets In addition to updates throughout this new edition contains three new chapters one on techniques for analyzing tire performance one that provides an introduction to metric driven analysis a technique that is used throughout the book and another that explains what kind of information the data contains about the track

Analysis Techniques for Racecar Data Acquisition Jorge Segers, 2008-05-25 Data acquisition has become an invaluable tool for establishing racecar and car driver performance Now that the ability exists to analyze each and every performance parameter for car and driver accurate use of this data can provide a key advantage on the racetrack This book provides a thorough overview of the varied methods for analyzing racecar data acquisition system outputs with a focus on vehicle dynamics
