Book, Hard & Spiral, Hardcover

A COMPENDIUM OF DEMONS, FALLEN ANGELS, AND INFERNAL SPIRITS

The Dictionary of Demons starts with a simple premise: names have power. In medieval and Renaissance Europe, it was believed that speaking a demon's true name could summon it, compel it, and bind it.

French scholar Michelle Belanger has compiled the most complete compendium of demon names available anywhere, using both obscure and obscure sources from the Western gothic tradition. Drawn alphabetically from Aard to Zyntryx, more than 1,000 demons are introduced and explained, with many of them cross-referenced by theme and elemental or planetary correspondence. The meticulously researched references work also feature fascinating short articles on demonology and a wealth of woodcut images and paintings depicting demons through the ages.

Michelle Belanger is an expert and scholar in the gothic and occult and the author of several books, including *The Ghost Hunter's Journal Guide*. She regularly appears on ABC's hit show *Paranormal State*, and has appeared in documentaries on HBO and the History Channel as well as on television programs in the United Kingdom, France, and Mexico.
