Walsh, 2007 The complex narrative technique of one of Spain's most renowned contemporary authors The writings of Arturo P rez Reverte one of Spain's most renowned contemporary authors have been described as a minefield This monograph examines the complexities behind the narrative technique employed in creating such a minefield including an analysis of the role played by both male and female characters the relevance of the past as a motif and aspects of the role of storytelling in creating mystery where none should exist Both Revertian novels and journalistic writing are seen to be part of an over all game which is played between their author and his readers Film too forms part of the material reviewed as though P rez Reverte is not a script writer many films have been based on his novels The text centred analysis concludes that the themes of interest in all Revertian output revolve around two main areas the significance of the past whether historical cultural or literary and the role of the written word in communicating in rescuing and in challenging versions of that past in order to combat what P rez Reverte terms dismemory ANNE L WALSH lectures in Hispanic Studies at University College Cork *Investigating Identities*, 2009-01-01 Investigating Identities Questions of Identity in Contemporary International Crime Fiction is one of the relatively few books to date which adopts a comparative approach to the study of the genre This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national regional or local contexts and also uncover similarities between the works of authors from very different areas Contributors explore discourse concerning national and historical memory language race ethnicity culture and gender and examine how identity is affirmed and challenged in the crime genre today They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with

philosophical enquiry into the epistemological dimensions of investigation Throughout the notion of stable identities is subject to scrutiny While each essay in itself is a valuable addition to existing criticism on the genre all the chapters mutually inform and complement each other in fascinating and often unexpected ways This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity It will therefore be of special interest to students and scholars of the crime genre identity studies and comparative literature It will also appeal to all who enjoy reading contemporary crime fiction

The Films of Johnny Depp William B. Parrill, 2017-02-10 Since his rise to fame in the television series 21 Jump Street in 1987 and his subsequent transition to film acting Johnny Depp has received constant criticism for his choice of roles at least until his popular turn in the Pirates of the Caribbean series This book aims to reveal the ways in which Depp's choices of film roles though often considered eccentric allowed him to develop into the representative film actor of his time It organizes all of Depp's films chronologically narrating in the process his transition from underestimated teenage pretty boy to bona fide Hollywood hotshot Along the way the book addresses Depp's relationship to earlier film actors especially to Marlon Brando and the silent comics the influence of Depp's androgynous sexuality on both his choice of roles and his acting and his relationships with directors Terry Gilliam and Tim Burton
