The Memory Palace Of Matteo Ricci Jonathan D Spence:

The Memory Palace of Matteo Ricci Jonathan D. Spence, 1985-09-03 From the renowned historian and author of *The Death of Woman Wang* a vivid and gripping account of the 16th century missionary's remarkable sojourn to Ming China In 1577 the Jesuit Priest Matteo Ricci set out from Italy to bring Christian faith and Western thought to Ming dynasty China To capture the complex emotional and religious drama of Ricci's extraordinary life Jonathan Spence relates his subject's experiences with several images that Ricci himself created four images derived from the events in the Bible and others from a book on the art of memory that Ricci wrote in Chinese and circulated among members of the Ming dynasty elite A rich and compelling narrative about a fascinating life *The Memory Palace of Matteo Ricci* is also a significant work of global history juxtaposing the world of Counter Reformation Europe with that of Ming China

The Brush and the Spur Robert Joe Cutter, 1989 *True Confucians, bold Christians* Antton Egiuren Iraola, 2007-01-01 The three methods of doing mission namely conquista accommodation kenosis need to be seen not so much as historical events that took place in a particular time and space but rather as deeply engraved mind structures and personal attitudes as we confront many of the modern time issues such as mass poverty and its relationship to the churches interreligious and ecumenical dialogue relationship with Islam Catholic education in public institutions moral and ethical problems regarding the treatment of embryos for eugenic purposes issues concerning the end of life social debate on alternative lifestyles and the role of women in ecclesial institutions to mention but a few

The Memory Arts in Renaissance England William E. Engel, Rory Loughnane, Grant Williams, 2016-08-18 Anthology of a selection of early modern works on memory

The Theologian and the Empire: A Biography of José de Acosta (1540-1600) Andrés I. Prieto, 2024-02-06 Although Jesuit contributions to European expansion in the early modern period have attracted considerable scholarly interest the legacy of Jos de Acosta 1540 1600 is still defined by his contributions to natural history *The Theologian and the Empire* presents a new biography of Acosta focused on his participation in colonial and imperial politics The most important Jesuit active in the Americas in the sixteenth century Acosta was fundamentally a political operator His actions on both sides of the Atlantic informed both Peruvian colonial life and the Jesuit order at the dawn of the seventeenth century

Super Continent Kent E. Calder, 2019-04-30 A Eurasian transformation is underway and it flows from China With a geopolitically central location the country's domestic and international policies are poised to change the face of global affairs The Belt and Road Initiative has called attention to a deepening Eurasian continentalism that has argues Kent Calder much more significant implications than have yet been recognized In *Super Continent* Calder presents a theoretically guided and empirically grounded explanation for these changes He shows that key inflection points beginning with the Four Modernizations and the collapse of the Soviet Union and culminating in China's response to the Global Financial Crisis and Crimea's annexation are triggering tectonic shifts Furthermore understanding China's emerging regional and global roles involves comprehending two ongoing

transformations within China and across Eurasia as a whole and that the two are profoundly interrelated Calder underlines that the geo economic logic that prevailed across Eurasia before Columbus and that made the Silk Road a central thoroughfare of world affairs for close to two millennia is reasserting itself once again East Asian-German Cinema Joanne Miyang Cho,2021-09-29 This is the first edited volume dedicated to the study of East Asian German cinema Its coverage ranges from 1919 to the present a period which has witnessed an unprecedented degree of global entanglement between Germany and East Asia In analyzing this hybrid cinema this volume employs a transnational approach which highlights the nations cinematic encounters and entanglements It reveals both German perceptions of East Asia and East Asian perceptions of Germany through analysis of works by both German directors and East Asian East Asian German directors It is hoped that this volume will not only accelerate cross cultural exchange but also provide a wider perspective that helps film scholars to see the broader contexts in which these films are produced It introduces multiple compelling topics not just immigration multiculturalism and exile but also Japonisme children s literature musical modernity media hybridity gender representation urban space Cold War divisions and national identity It addresses several genres feature films essay films and documentary films Lastly by embracing three East Asian cinemas in one volume this volume serves as an excellent introduction for German cinema students and scholars It will appeal to international and interdisciplinary audiences as its contributors represent multiple disciplines and four world regions China John Keay,2011-12-06 An authoritative history of five millennia of Chinese history *Constructing Mission History* Stanley H. Skreslet,2023 Challenging other narratives of mission history Skreslet offers a new speech act theory approach to the modern roots of World Christianity that differentiates between what a missionary might intend to communicate and the effects of what has been said or actions taken both in the moment and over time **The Oxford Handbook of the Bible in China** Khiok-Khng Yeo,2021 The Oxford Handbook of the Bible in China deftly examines the Bible s translation expression interpretation and reception in China Forty eight essays address the translation of the Bible into China s languages and dialects expression of the Bible in Chinese literary and religious contexts Chinese biblical interpretations and methods of reading and the reception of the Bible in the institutions and arts of China This comprehensive and unique volume presents insightful succinct and provocative evidence about and interpretations of encounters between the Bible and China for centuries past continuing into the present and likely prospects for the future

The Chinese Face of Jesus Christ: Volume 2 Roman Malek,2022-11-12 This collection in five volumes tries to realize the desideratum of a comprehensive interdisciplinary work on the manifold faces and images of Jesus in China which unites the Sinological mission historical theological art historical and other aspects The first three volumes vols L 1 3 contain articles and texts which discuss the faces and images of Jesus Christ from the Tang dynasty to the present time In a separate volume vol L 4 follows an annotated bibliography of the Western and Chinese writings on Jesus Christ in China and a general index with glossary The iconography i e the attempts of the Western missionaries and the Chinese to portray Jesus in an

artistic way will be presented in the fifth volume of this collection vol L 5 **Strangers in Yemen** David Malkiel,2020-12-16 Strangers in Yemen is a study of travel to Yemen in the nineteenth century by Jews Christians and Muslims The travelers include a missionary artist scientist rabbi merchant adventurer and soldier The focus is on the encounter between people of different cultures and the chapters analyze the travelers accounts to elucidate how strangers and locals perceived each other and how the experiences shaped their perceptions of themselves Cultural encounter is among the most important challenges of our time a time of global migration and instant communication Today as in the past history provides a valuable tool for illuminating the human experience and this scholarly work stimulates us to contemplate the challenge of cultural encounter for it affects us all **Architecture of Modern China** Jianfei Zhu,2013-10-31 A collection of essays on architecture of modern China arranged chronologically covering a period from 1729 to 2008 focusing mainly on the twentieth century The distinctive feature of this book is a blending of critical and historical research taking a long range perspective transcending the current scene and the Maoist period This is a short elegant book that condenses the wide subject matter into key topics

The Blacks of Premodern China Don J. Wyatt,2012-02-28 Premodern Chinese described a great variety of the peoples they encountered as black The earliest and most frequent of these encounters were with their Southeast Asian neighbors specifically the Malaysians But by the midimperial times of the seventh through seventeenth centuries C E exposure to peoples from Africa chiefly slaves arriving from the area of modern Somalia Kenya and Tanzania gradually displaced the original Asian blacks in Chinese consciousness In *The Blacks of Premodern China* Don J Wyatt presents the previously unexamined story of the earliest Chinese encounters with this succession of peoples they have historically regarded as black A series of maritime expeditions along the East African coastline during the early fifteenth century is by far the best known and most documented episode in the story of China s premodern interaction with African blacks Just as their Western contemporaries had the Chinese aboard the ships that made landfall in Africa encountered peoples whom they frequently classified as savages Yet their perceptions of the blacks they met there differed markedly from those of earlier observers at home in that there was little choice but to regard the peoples encountered as free The premodern saga of dealings between Chinese and blacks concludes with the arrival in China of Portuguese and Spanish traders and Italian clerics with their black slaves in tow In Chinese writings of the time the presence of the slaves of the Europeans becomes known only through sketchy mentions of black bondservants Nevertheless Wyatt argues that the story of these late premodern blacks laboring anonymously in China under their European masters is but a more familiar extension of the previously untold story of their ancestors who toiled in Chinese servitude perhaps in excess of a millennium earlier *Minds in Motion* Anne M. Thell,2017-08-31 The central claim of *Minds in Motion* is that British travel writing of the long eighteenth century functions as an epistemological playing field where authors test empiricist models of engagement with the world while simultaneously seeking out the role of the self and the imagination in producing knowledge Whether exploring the relationship between the senses and the mind the narrative

viability of experimental detachment or the literary dynamics of virtual witnessing eighteenth century travel authors persistently confront their positionality and raise difficult questions about the nature and value of first hand experience In one way or another they also complicate empiricist ideals by exploring the limits of individual perception and the role of the imagination in generating and relating knowledge While the genre is often viewed as either numbingly documentary or non literary and commercial travel literature actually operates at the front line of the period s intellectual developments illustrating both how individual writers grapple with philosophical ideals and how these ideals filter into the lives of ordinary people Indeed travel literature directly engages the scientific and philosophical concerns of the period while it is also widely avidly read as such it offers models for cognitive and rhetorical practices that are evaluated and either embraced or rejected by readers in a process of identification not unlike that which occurs in early English fiction Moreover because eighteenth century travel literature is so crucial to the development of so many fields from botany to the novel it illustrates vividly the divisive energies of discipline and genre formation while also archiving the shared aims and methods of what will become discrete fields of study Travelogues as diverse as Margaret Cavendish s *Blazing World* 1666 and Samuel Johnson s *Journey to the Western Islands of Scotland* 1775 reveal the epistemological circuitry of the eighteenth century and historicize the absorption of the philosophical tendencies that have come to define modernity

Western Visions of the Far East in a Transpacific Age, 1522-1657 Christina H. Lee, 2016-02-17 Bringing to bear the latest developments across various areas of research and disciplines this collection provides a broad perspective on how Western Europe made sense of a complex multifaceted and by and large Sino centered East and Southeast Asia The volume covers the transpacific period after Magellan s opening of the transpacific route to the Far East and before the eventual dominance of the region by the British and the Dutch In contrast to the period of the Enlightenment during which Orientalist discourses arose this initial period of encounters and conquest is characterized by an enormous curiosity and a desire to seize not only materially but intellectually the lands and peoples of East Asia The essays investigate European visions of the Far East particularly of China and Japan and examine how and why particular representations of Asians and their cultural practices were constructed revised and adapted Collectively the essays show that images of the Far East were filtered by worldviews that ranged from being on the one hand universalistic and relatively equitable towards cultures to the other extreme unilaterally Eurocentric

Accommodation and Acceptance Ambrose Mong, 2015-12-31 As Hans Kung said No peace among the nations without peace among the religions No peace among the religions without dialogue between the religions No dialogue between the religions without investigation of the foundations of the religions Accommodation and Acceptance is a crucial work in both promoting interreligious dialogue and exploring the turbulent history of Christian faith and identity in Asia down the years From the reaction to missions often inextricably linked with the practice of colonialism to the rise of religious pluralism Ambrose Mong examines the relationships between the leading faiths of Asia up to the present day Whether practicing

pluralism or exclusivism the history of Christianity in Asia is long and fascinating AmbroseMong delves into the biography of intercultural pioneers like Matteo Ricci and Timothy Richard to understand better the theology as well as the pragmatism behind cultural accommodation and the necessary mutability of an eternal church The Globalization of Renaissance Art Daniel Savoy,2017-12-11 In The Globalization of Renaissance Art A Critical Review Daniel Savoy assembles an interdisciplinary group of scholars to evaluate the global discourse on early modern European art Over the course of eleven chapters and a roundtable the contributors assess the discourse s goal of transcending Eurocentric boundaries reflecting on the strengths and weaknesses of current terms methods theories and concepts Although it is clear that the global perspective has exposed the artistic and cultural pluralism of early modern Europe it is found that more work needs to be done at the epistemological level of art history as a whole Contributors Claire Farago Elizabeth Horodowich Lauren Jacobi Thomas DaCosta Kaufmann Jessica Keating Stephanie Leitch Emanuele Lugli Lia Markey Sean Roberts Ananda Cohen Aponte and Marie Neil Wolff **The Chinese Face of Jesus Christ: Volume 3b** Roman Malek,2022-11-12 This collection in five volumes tries to realize the desideratum of a comprehensive interdisciplinary work on the manifold faces and images of Jesus in China which unites the Sinological mission historical theological art historical and other aspects The first three volumes vols L 1 3 contain articles and texts which discuss the faces and images of Jesus Christ from the Tang dynasty to the present time In a separate volume vol L 4 follows an annotated bibliography of the Western and Chinese writings on Jesus Christ in China and a general index with glossary The iconography i e the attempts of the Western missionaries and the Chinese to portray Jesus in an artistic way will be presented in the fifth volume of this collection vol L 5 This unique ongoing project continues to open a new vital lens to learn more about China in its intellectual and cultural dimensions John Witek in *Journal of Asian Studies* **Cambridge History of China** John K. Fairbank,Denis Twitchett,1998 This volume of the *Cambridge History of China* considers the political military social and economic developments of the Ch ing empire to 1800 The period begins with the end of the resurgent Ming dynasty covered in volumes 7 and 8 and ends with the beginning of the collapse of the imperial system in the nineteenth century described in volume 10 Taken together the ten chapters elucidate the complexities of the dynamic interactions between emperors and their servitors between Manchus and non Manchu populations between various elite groups between competing regional interests between merchant networks and agricultural producers between rural and urban interests and at work among all these tensions between the old and new This volume presents the changes underway in this period prior to the advent of Western imperialist military power
