Introduction To Psychological Assessment In The South African Context 4th Edition:

An Introduction to Psychological Assessment in the South African Context Cheryl Foxcroft, G. Roodt, 2001 Assessment has come under the spotlight in post apartheid South Africa The Employment Equity Act passed in 1998 places the onus on test users to ensure that they are using valid and reliable measures in a fair and unbiased way with all employees and groups This book is an introduction to assessment of benefit to both students and practitioners Psychological Assessment in South Africa Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa The thirty six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments Psychological Assessment in South Africa provides in depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists psychometrists remedial teachers and human resource practitioners **Methods and Assessment in Culture and Psychology** Michael Bender, Byron G. Adams, 2021-02-18 Cross cultural studies require sound methodology and psychometrics This book outlines advances in assessment from many expert perspectives Embracing Well-Being in Diverse African Contexts: Research Perspectives Lusilda Schutte, Tharina Guse, Marié P. Wissing, 2022-05-19 This is the first volume providing a research platform to showcase research in the field of positive psychology and well being science in African contexts Next to enhancing context sensitive theory and practice on the African continent it also contributes to the global discourse in positive psychology and facilitates the development of a science that reflects and is relevant to complexity and diversity in a globalising society This volume brings together work from African scholars featuring research on theoretical perspectives on well being in Africa measurement of well being in Africa manifestations and dynamics of well being in Africa and well being promotion in Africa It stimulates further research in positive psychology and well being science in the African context and globally and emphasises the interconnectedness and situatedness of human functioning and well being contributing to a more balanced perspective on well being in an international perspective The volume benefits researchers students and practitioners in Africa and other international contexts who study or apply the science of positive psychology and well being in diverse contexts Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com *The Praeger Handbook of Personality across Cultures* A. Timothy Church Ph.D., 2017-07-14 This important multivolume work sheds light on current and future research on cultural universals and differences in personality

in their evolutionary ecological and cultural contexts How does culture impact personality traits To answer that question the three volumes in this set address current theory and research on culture and personality in an effort to determine how people differ and how they are alike Detailed chapters by scholars from around the world unveil a fascinating picture of the relationship between culture and important aspects of personality They also address the accuracy or meaningfulness of trait comparisons across cultures and the methods and limitations of research on the subject As most psychological research is conducted on participants from Western industrialized countries a work that includes a wide range of cultures not only fosters a more complete understanding of human personality but also broadens perspectives on value systems and ways to live Each of the three volumes concentrates on distinct areas of research exposing the reader to the diverse theoretical and empirical approaches and topics in the field Volume 1 focuses on the cross cultural study of personality dispositions or traits Volume 2 examines the relationship between culture and other important aspects of personality including the self emotions motives values beliefs and life narratives as well as aspects of personality and adjustment associated with biculturalism and intercultural competence Volume 3 looks at evolutionary genetic and neuroscience perspectives on personality across cultures along with ecological and cultural influences In addition to providing readers with a thorough analysis of current and future directions for research this unrivaled work brings together multiple perspectives on personality across cultures thereby promoting a more integrative understanding of this important topic

Minority and Cross-Cultural Aspects of Neuropsychological Assessment F. Richard Ferraro, 2015-07-16 Minority and cross cultural psychology is more relevant now than ever in our diverse world Given the dramatic local and global changes occurring daily with regard to demographics population changes and immigration issues minority and cross cultural psychology is fast becoming a respected and critical area of scientific study Pair that with the fact that people of all cultures and racial groups are living longer and experiencing age related diseases and disorders one can easily see the need for additional work on issues related to neuropsychological assessment This new edition brings to the forefront recent developments by seasoned experts in the field They offer up their newest projects in minority and cross cultural aspects of neuropsychological assessment and are joined by new up and coming professionals across a wide array of disciplines including psychology medicine and neuropsychology Like the first edition this updated collection sheds light on the ever growing need for adequate neuropsychological assessment to a wider subset of individuals crossing many cultural and minority barriers in the process Continuously pushing the boundaries of neuropsychological assessment this collection is essential reading for cognitive and clinical psychologists and neuropsychologists and a model text for advanced courses dealing with minority and cross cultural issues
