Riding the Tiger Wilfried Aulbur,Amit Kapoor,2016-11-18 How can one survive in a market which is volatile and
uncertain What strategies have worked and not worked in the past What does it take to be successful in India What are the
successful strategies applied by the likes of HUL Godrej Adani Ports and redBus So what does it take to Ride the Tiger Sound
flexible strategy operational excellence and dedication to customer centric innovation But what does that really mean How
have successful Indian companies managed challenges in an extremely price sensitive market In this book Wilfried Aulbur
and Amit Kapoor look at successful and sometimes not so successful strategies operations and innovations in India They have
distilled lessons from their decades of practical work experience in the country From large family conglomerates like Tata
and Godrej to newer additions like Adani from MNCs like Maruti Suzuki to start ups in Bangalore and Gurgaon the book
explores key learnings from all four kinds of companies in an Indian context and provides useful insights into how business is
done in India The China Paradox Paul G. Clifford,2021-12-06 In The China Paradox At the Front Line of Economic
Transformation Harvard University based historian of modern China and business strategist Dr Paul G Clifford documents
the twists and turns of China s dramatic and unforeseen rise over the last four decades He sheds light on the delicate and
fragile balance of forces at the heart of the success of China s hybrid model explaining how the ruling Communist Party
boldly led the nation s economic reforms as the surest way to preserve its grip on political power Five years after this book
was first published much has changed within China and in its relationship with the world This second edition provides
extensive fresh new material It explains how China has raised its game moving from a catch up mode to technological
innovation in some areas while still languishing in technology dependence in other respects Earlier China had shown signs
that its driving spirit was faltering with its sails flapping Under Xi Jinping renewed energy has been injected But at the same
time Xi and his party have strongly reinforced their control across society and the economy posing the question of whether Xi

s New Era in fact marks a retreat from the reforms This second edition contains two new chapters One profiles Huawei a national champion in advanced technology Another focuses on China s frictions with the world which have been fueled by a perception that its technology progress threatens US global dominance coupled with China s human rights record In addition against a background of the challenges faced by Alibaba and other firms there is analysis of this watershed in China s private sector s autonomy There is also extensive new insight into Xi Jinping s rule As it celebrates its 100th anniversary in 2021 the Chinese Communist Party displays strong optimism over its continued governance of China But that should not mask the longer term risks to China s development and stability if its hybrid model continues to unravel as reforms are abandoned in favor of heightened autocracy
