

Organisational Knowledge Procedure

- **Monitor and evaluate:** [Organisations Name] need to monitor and evaluate the effectiveness of the changes made to the QMS processes. This can be done through performance metrics and customer feedback.

5.4 Flow Chart

- **Determine the knowledge necessary for the operation of your processes:** Identify the knowledge required to ensure the effective operation of your processes, such as customer needs and expectations, regulatory requirements, and industry best practices.

Organisational Knowledge Procedure

- **Identify internal and external sources of knowledge:** Determine where the knowledge is located, including within your organisation (e.g., employee expertise, documented information) and outside of it (e.g., industry publications, conferences).

- **Share knowledge:** Share knowledge among employees and other stakeholders who require it for the effective operation of the processes. This can be done through training programs, mentoring, or other forms of communication.

- **Use knowledge:** Ensure that knowledge is effectively used in decision-making, problem-solving, and other activities related to the operation of your processes. Regularly review and update organisational knowledge to ensure its relevance and usefulness.

6. Criteria and Risk of "Control of Organisational Knowledge Process"

6.1 Criteria of "Control of Organisational Knowledge" Process

The control of the organisational knowledge process is an essential component that involves identifying, maintaining, and sharing knowledge within an organisation to improve its operations and meet customer requirements.

The criteria for the control of the organisational knowledge process include:

- **Acquisition of organisational knowledge:** This involves acquiring knowledge from a variety of sources, including internal and external sources, and ensuring its accuracy and relevance.

- **Preservation of organisational knowledge:** This involves storing and maintaining organisational knowledge, including updating and revising it as necessary.

The ISO 9000 Documentation Toolkit Janet L. Novack, 1994 Enlarged revised and completely updated to include the new 1994 Revised ISO Standard this innovative book disk set is a practical toolkit designed to evoke discussion at planning meetings to be annotated and written in and to be employed in the writing of procedures Disk contains documentation templates in Microsoft Word for the PC and Mac and in WordPerfect for DOS *Quality Procedures for Hardware and Software* D.J. Smith, J.S. Edge, 2012-12-06 How to Use This Book The primary purpose of this book is to assist small companies involved in both hardware and software to devise and evolve their own quality systems There are a number of national and now international standards which outline the activities for which procedures and records need to be specified They are described and compared in Chapter 2 and the subsequent guidance in the book is intended to assist in meeting them Although at first sight the operations of a hardware equipment developer may seem very different from those of a software house the basic requirements of a quality system such as the BS 5750 and ISO 1987 series of documents are the same For this reason the same standard can be called for in both areas and it will be seen in Part 2 that suitable procedures can be derived to meet both types of operation Quality standards BS 5750 AQAP ISO 9000 series distinguish between companies carrying out on the one hand both design and manufacturing fixed functions and on the other hand those who only manufacture to specifications In practice the lesser requirements those applying to manufacture to fixed specifications are common to both levels of standard and the additional controls pertaining to design are added to obtain the higher standard Chapter 2 explains the differences in detail **The Safety Critical Systems Handbook** David J.
