you don't know about Facebook could hurt you and what you will learn about Facebook from this book definitely will help you. It's a fun and easy read and a surefire way to seriously increase your income.

Jay Conrad Levinson The Father of Guerrilla Marketing author of the Guerrilla Marketing series of books. Facebook advertising appears simple but it's trickier than search engine marketing. In this book Perry Marshall and Tom Meloche teach you the secret of Right Angle Marketing: selling based on who people are and what they identify with. This is entirely different from Yahoo or Google. They help you determine how to prioritize Facebook within your particular marketing mix. Then they take you by the hand and lead you through the minefield showing you the tools, bidding techniques and sales cycles of Facebook ads. Without their help the odds are stacked against you. With their help your chances of success are excellent.

Alex Mandossian Heritage House Publishing author of The Business Podcasting Bible. Perry Marshall has done more to demystify Google AdWords for business owners than any person on earth. With this book he's done the same for Facebook. If you want to cut through the smoke quickly and make money advertising on Facebook this is the book to read.

Ken McCarthy The System Seminar Tivoli NY. The irony of living in the Information Age is that good info has gotten harder to come by. The lame stuff still manages to clog the pipes causing chaos and preventing you from discovering the legit specifics that can actually help you in your quest for business success and a bigger bottom line.

Perry Marshall has been a first stop, one stop resource for the best possible advice on making AdWords work since Google unleashed it on the marketing community and now Perry's new tome on Facebook's astonishing and yet to be fully tapped power to reach gazillions of targeted, eager prospects most of whom you'd never even know existed otherwise is the first and probably the only book you need to be one of those early adopters who score fastest.

Perry's books are always essential. This one is perhaps more so than usual.

John Carlton the most respected and ripped off veteran copywriter on the Web. Perry Marshall is amazing. He reinvented himself from engineer to white paper expert to become the world's leading expert in Google AdWords. Now with his secret weapon Tom Meloche he's reinvented himself again this time as the guru in Facebook advertising through which he points out you can access 600 million customers in 10 minutes.

Bob Bly author of over 60 books including Complete Idiot's Guide to Direct Marketing, The Online Copywriter's Handbook and Public Relations Kit for Dummies. Perry Marshall is a terrific writer who makes wonderful use of stories and analogies to illustrate a concept. He does this exceptionally well in the chapter on ad copy writing: The Power of Hidden Psychological Triggers. That chapter alone is worth the price of this book.

Many companies have tried Facebook ads and failed for one simple reason: they treated Facebook advertising like search advertising. Facebook is social advertising. Social advertising is about understanding and reaching the user. Not the user's behavior but the actual person. This is where the book shines. It walks you through strategies of reaching your target audience based upon the person's social profile so that you aren't just accumulating Likes but actually gaining new customers.

I'd recommend this book to anyone who is advertising or wants to advertise on Facebook. Social advertising is unique from most other types of advertising and this book will teach you the concepts and how to do you must understand so
